at the Imperial Hotel Tokyo in January 2014

Dear Mr. Viganis Ramasamy,

I am Yukihiisa SHIDA, a Japanese medical doctor who invented a cocktail “Chairperson” in 2004. I requested four head bartenders of the Four Seasons Hotel Paris, Ritz Hotel Paris, Shangri-la Hotel London, and Claridge’s Hotel London to give their comments on the cocktail “Chairperson” and to take a picture with me for my memory and for the record of our academic papers in October and November 2022. And I requested the head bartender of the Four Seasons Hotel Kuala Lumpur in April and June 2023 and bar manager of the Mandarin Oriental Hotel Bangkok in October, 2023. Then, I was able to meet only Mr. Panos Ntalianis, Head Bartender of Shangri-la Hotel London, and he kindly provided his comment for us, all chairpersons around the world. We met at the bar GONG of Shangri-la Hotel, located on the 52nd floor in London, on October 31, 2022. [Reference: “Chairperson Cocktail (B)” on the academic homepage “chairperson.jp”]

Head Bartender, I have booked a room at the Raffles Hotel Singapore on October 22, 2024. If possible, I would like to hear your comments on the cocktail “Chairperson” and take a picture with you for my memory and for the record of our academic papers at your main bar, the Long Bar on October 22, 2024.

By the way, I met Ms. Sophia Kang, Head Bartender of the Four Seasons Hotel Singapore, at the Four Seasons Hotel Otemachi, Tokyo, on May 11, 2024, and had the following conversation.

Dr. Shida: Ms. Head Bartender, you came from Pusan, Korea, and have successfully become a female head bartender at the Four Seasons Hotel Singapore. Have you received any sexual harassment or power harassment in Singapore as an outsider? I experienced all kinds of harassment from doctors of the Sanikai (Mie University Medical School clique) in my hometown of Tsu City, Mie Prefecture. In 1997, at the age of 35, I was driven out of my hometown and moved to Osaka.

Ms. Kang: Singapore is a stoic country. And our company (Four Seasons Group) protects me.

Head Bartender of the Four Seasons Hotel Singapore, Ms. Sophia Kang's fair was held at the Four Seasons Hotel Otemachi, Tokyo in May, 2024

My hometown, Mie Prefecture, which includes the Grand Shrine and resorts overlooking the Ise-Shima Sea, and Kyoto City, a renowned tourist destination in Japan that boasts numerous shrines and temples, both have barren land. The academic cliques of National Mie University and National Kyoto University have been attacking me and ignoring the academic website “chairperson.jp” instead of protecting us within Japan’s academic medical community. National Mie University started the academic harassment in 1990, and National Kyoto University started it in 2016. They approach me, sigh, whistle poorly, shout or yell, nudge my shoulder, label me as coming from a private university and mediocre, withhold my salary (over 500 million yen in Mie Prefecture) and deny me a post, and even make advances on my then-spouse, among other things in Japan. **Japan is a sensitive country regarding nuclear weapons, but insensitive regarding academic harassment.** Japanese mass media also turns a blind eye and a deaf ear to academic harassment perpetrated by the university’s clique and, as a result, condones and encourages it.
