Executive Assistant General Manager  
Four or Five-star Hotel  
Kuala Lumpur, Malaysia

Dear Assistant General Manager,

This is the first time for me to send a letter about our study to your hotel. I am the Doctor and Chairperson of Sports in Japan. It is my pleasure to introduce our academic homepage “**chairperson.jp**” which is visited from all over the world excluding China (?). For your information, I have informed about the “**Chairperson 20th Anniversary Treatise**” which is an unconventional style (not a full paper style) to the professors of the University of Tokyo in 2012, Harvard University in 2013, Oxford University in 2014 and Paris University in 2015 for the “**Doping-Backdoor Theory**,” the general managers or assistant general managers of hundreds of four or five-star hotels around the world for the “**Chairperson Cocktail**” and the regular members of the Vienna Philharmonic Orchestra for “**My Way**” in (2010 and) 2016. “There are one and only theory and cocktail for universities and hotels in the 21st century.”

In Japan, Waseda University, the sole first-class private university, does not use the entrance-examination broker and 70 ~ 80% of the undergraduate students have a brain. Dr. Kaoru Kamata, (former) President of Waseda University and his henchmen spoke ill of me at Waseda University, “We (Waseda) can’t accept Dr. Shida’s way of conducting his research. He promotes his research on the floor, not on the stage ...” behind my back on July 10, 2006. From a bitter (not sweet) view point, three-fourth of undergraduate students of Waseda University are strong and one-fourth of them are weak, like Keio University which is the third-class private university to use the entrance-examination broker. “Quarter Weak (*San-kyou, Ichi-jaku*).” The University of Tokyo is the best one among about ten first-class public universities which does not use the entrance-examination broker and 100% of the undergraduate students have a brain. Two professors of the University of Tokyo gave their historical and traditional ‘Academic Harassment’ to me at the University of Tokyo. They dropped their head abruptly towards me on March 14 and May 22, 2012. For your reference, Fukushima University and my old school, Mie University are near first-class public universities which do not use the entrance-examination broker and 90% of the undergraduate students have a brain.

Assistant General Manager, it would be grateful if your hotel is interested in my research. And I am content that your hotel just gets to know our cocktail “**Chairperson.**” No response will be needed. These serious situations for our study in the academic field in Japan had been reported to the Board of Directors of the Japan Society for Medical Education on May 30, 2015. Please feel relieved, but a little.

Sincerely,

I will take a business trip to Kuala Lumpur and stay at the Mandarin Oriental Hotel Kuala Lumpur on April 16 and Four Season Hotel Kuala Lumpur on April 17, 2023. I took part in the restaurant and bar event and gave comments to a two-star chef and a three-star Chef, Owner of Champagne maker and Head Bartender in Tokyo on February 19, 2023.

Regarding the backdoor entrance examinations, famous universities in the 21st century, private Teikyo University, private Tokyo Medical University and private Waseda University have an image, “*Urameshiya* (famous rueful restaurant in Japan).” There is a well-known story in Japan, they go to the restaurant (Gust restaurant, etc.) ... and talk on their backdoor money, about 450 thousand million € (five hundred thousand US\$) with a broker like private Waseda University graduates in Japan in the cold winter season. “Very Expensive!” Then private Waseda University graduates went to a detention facility and had a lunch and supper, too. Chef, I was glad to enjoy a special dinner created by two- and three-star Michelin chefs and an owner who got to the top of a long-established Champagne company at the age of just 30. I enjoyed a dinner at the SAGA restaurant (James Kent Chef, 63F) in New York City last month (January 29, 2023), so could not tell two-star dishes from three-star dishes on the full-course menus made by Tanaka Chef and Marcon Chef, respectively, today. And Owner, I am 61 years old and became an international chairperson of Table Tennis Association at the age of just 29 as well. Thank you. Dr. Shida provides an explanation to Head of Mixology, Mr. Yann Bouvignies (Scarfes Bar of Rosewood Hotel London: Best International Hotel Bar, Spirited Awards, Tales of the Cocktail 2020) on February 19, 2023

I will introduce our cocktail “Chairperson” to four or five-star hotels in Kuala Lumpur in Malaysia next April. As you know, the cocktail “Chairperson” is created for gender equality in Japan. And I research the irregularities in entrance examinations, especially “Backdoor admissions” for universities and I am probably one and only researcher around the world this century. Japanese private universities have decimated students taking an entrance examination based on not only connections (intervening between them and universities) and much money paid to private universities, but also gender when they take entrance examinations. Mr. Head Bartender, in our society, The Times also reported on the backdoor entrance examination at Oxford University in 2002. American Express Company undisclosed membership fee and benefit... of the AMEX Centurion Card on the official homepage. In addition, it is said that Japanese major newspaper companies neglect to follow the report of a Japanese citizen, when a broker which has been used by major newspaper companies visited each home to sell major newspaper, they rarely yelled and kicked the front door of a house like Mr. Masashi WATANABE, (former) President of Funabashiya (Japanese confectionery shop in Tokyo) did. And my alma mater, national Mie University also covered up a scandal that a doctor tapped on the other shoulder and shouted in the hospital. Then Japanese don’t say “they (private money-powered backdoor university students and graduates) paid much money to the backdoor university as medical expenses for six years through a broker for backdoor student, Takatoku SANO’s family offered about 450 thousand million € (five hundred thousand US\$) to the university before an entrance examination, however, they are brilliant.”
