**Mid-level Manager
Four Seasons Hotel Moscow**

**Mid-level Manager
Grand Kempinski Hotel Geneva**

**Hotel Manager (Executive Assistant General Manager)
Grand Hyatt Hotel Beijing**

October 15, 2017

Mr. Richard Simmons
General Manager
Grand Hyatt Hotel
Beijing, China

Ms. Katsura

“Is their conversation at the University of Tokyo meaningful (*Imiga-aruru*) or farce (*Chaban*) in June, 2014?”
The Entrance-examination for the University Conversation between Dr. Junichi Hamada (The University of Tokyo) and Dr. Hiroko Okinaga (Wife, the Okinaga family)

Dear Mr. Simmons

I stay at the Grand Hyatt Hotel in Beijing on October 15, 2017. I appreciate your kindness in allowing me to stay at the Grand Hyatt Hotel Beijing and to give a comment to you, as I did at Osaka University, on October 15, 2017.

Mr. Massimiliano Musto : General Manager of the Four Seasons Hotel Moscow (August 27, 2017)

Mr. Thierry Lavalley: General Manager of the Grand Kempinski Hotel Geneva (August 28, 2017)

Mr. Richard Simmons: General Manager of the Grand Hyatt Hotel Beijing (October 15, 2017)

Dr. Shida provides an explanation to Mr. Simmons

“I passed the entrance examination for Fukushima University Faculty of Education (near first-class public university, Japan) in 1984 and have researched sports and medical education since 1999, after retiring from working as a team doctor of Japan Table Tennis Team in 1994. Our academic homepage ‘chairperson.jp’ was launched in 2016. However, we cannot wipe out doping and backdoor admissions in our society immediately. A biogenesis baseball scandal revealed in the U.S.A. in 2013 when several Major League Baseball (MLB) players (Mr. Alex Rodriguez of New York Yankees ...) were accused of obtaining performance-enhancing drugs. Russian tennis star Maria Sharapova tested positive for meldonium which is also known as midronate, it increased exercise capacity in athletes at the Australian Open in January, 2016. The International Olympic Committee announced that three female gold medalists in the weightlifting (Ms. Liu Chunhong...) were disqualified from the Beijing Olympic Games in 2008 because of a doping violation on January 12, 2017. And Mr. Sebastian Coe, President of the International Association of Athletics Federations (IAAF) said that he was disappointed with the lack of progress made by Russia in cleaning up its anti-doping regime and made it clear that the Russian Athletics Federation would be suspended from competition on April 13, 2017. In Japan, Ministry of Education, Culture, Sports, Science and Technology gave a notification that Teikyo University (third-class private university) must return a subsidy from the government. Because Teikyo University asserted that President of Teikyo University (the Okinaga family) was unaware of every detail or aspect of the university’s chief secretary’s ‘Backdoor operation.’ Further, the Okinaga family (the founder of Teikyo University) must pay unpaid tax because the Okinaga family deposited their money as tax evasion to the bank in Liechtenstein in secret where is covered by Swiss Army. ‘No small potatoes!’ On May 14, 2017, I met and talked with ‘the Best Female Chef in Japan’ Ms. Yukino Katsura at the Park Tower Prince Hotel Tokyo. ‘Today (May 14, 2017), I joined the Jikei University doctors meeting, Japan Medical Association Program, in Tokyo and said ‘Please do not mistake me for a doctor from a third-class private university like Jikei Medical University. I am M.D. and Ph.D. of Mie University (near first-class public university)’ to the reception staff who talked to me in a casual manner and I listened to impolite lectures (*Chatte, Nacchau...*) by three lecturers who graduated from or worked for private universities. Then a female doctors who sat next to me left her seat often and heaved a sigh three times during the same program. Chef, please note that I (Dr. Shida) who graduated from and worked for Mie University is different from graduates of Jikei University that is located near Park Tower Prince Hotel Tokyo.” Indeed, my dentist who graduated from Niigata University (near-first class public university) and implant specialist in Tokyo confused me (Mie University graduate) with graduates of third-class private backdoor universities like Jikei University or Aichi Medical University on May 23, 2017. On June 10, 2017, we saw a doctors’ group of Kyorin University (third-class private university) which did not touch their university’s name, so spoke on non-academic subjects loudly at the Roppongi Hills Club Japan. [We cannot discuss academic themes without telling each others’ academic background.] And I heard president and director of the hospital who graduated from Kyorin University were impolite. He talked to me about my patients ‘*Chatte, Wruku-nacchata*’ at the hospital in Chiba prefecture on August 4, 2017 like Prof. Takenori Mishiba of Kindai University and Prof. Tsuneto Akashiba of Nihon University. There are slogans, such as ‘Walk down the hallway quietly’ and ‘First, say your name and class, and behave politely to teachers’ at elementary schools in Japan. General Manager, I already had given a warning to the Mitakai (Alumni Association of Keio University, Tokyo) as a third-class university once before because they used vulgar language and laughed loudly at the Imperial Hotel Tokyo, but it is difficult for all the 29 backdoor universities (black list?) that conducted backdoor admissions to understand the academic homepage ‘chairperson.jp’ in the 21st century.”

Mr. Rodriguez

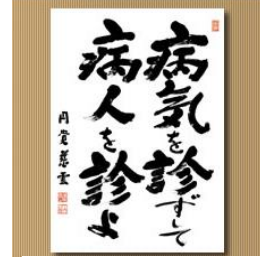

Ms. Sharapova

Ms. Chunhong

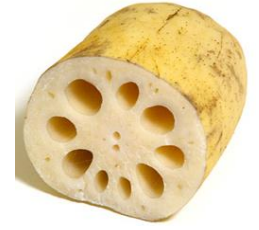

“The Most famous entrance - examination broker for a university in Japan this century.”
Mr. Yoshihito Okinaga
(The Okinaga family of Teikyo)

“See human, not disease.”
The spirit of Jikei University

“The third-class universities do not tell their names like Keio University... (not Hamamatsu University School of Medicine) at first and won't try to talk foolish (*Ahokusai*) topics on their nurse... at a reasonable volume in a restaurant, hotel and train.”
Flag and image of Mitakai (Keio) this century

Sincerely,

Yukihisa SHIDA, M.D., Ph.D.

The Doctor and Chairperson of Sports — the fastest pace in history

Team Doctor of the Japan Table Tennis Team (1990-1994)

Chairperson of the International Table Tennis Federation Sports Science Congress (1991)
