I stayed at the Mandarin Oriental Hotel Kuala Lumpur on April 16, 2023. I appreciate your kindness in allowing me to stay at the Mandarin Oriental Hotel in Kuala Lumpur to give a comment to you, as I did at Osaka University, on April 17, 2023.

Mr. Christian Tavelli: General Manager of the Mandarin Oriental Hotel Kuala Lumpur (April 17, 2023)
Dr. Shida provides an explanation to Mr. Tavelli

In 1981, (former) Prime Minister Mahathir bin Mohamad (Medical Doctor) proposed the concept of the “Look East Policy,” and the Malaysian government promoted the concept that the secret to the success and development of Japan and South Korea lies in the people's work ethic, willingness to learn and work, morality, and managerial ability, etc. and that contributed to the development of the Malaysian economy and the establishment of an industrial base. In addition, (former) Prime Minister Abdullah bin Ahmad Badawi, who took the post in 2003, had continued to attach importance to this policy. However, please be aware of the below facts in Japan as I think these are bad and dirty things regarding Japanese mass media from the view point of myself as a doctor and scholar specialized in medical education. A Malaysian student who studies in Japan said, “Japanese people have their ‘*Honne* (private thoughts)’ and ‘*Tatemae* (public assertion),’ too.”

1981年に医師でもみえる Mahathir (前) 首相が「Look East 政策」構想を提唱され、日本及び韓国の成功と発展の秘訣が国民の労働倫理、学習・勤労意欲、道徳、経営能力等にあるとして、両国からそうした要素を学び、Malaysia の経済社会の発展と産業基盤の確立に寄与させようとする Malaysia 政府の政策が推進されてます。また本政策は 2003 年に就任した Anwar 首相によられても引き続き重視されてきましたが、医学教育が専門の学者、医師の私から日本を見直しますと、日本の Mass Media に関連しまして下記の様な悪い面、汚い面もありますためお気を付けください。ある日本への Malaysia 留学生も、「日本人は本音と建前を持っています」と述べてみえます。

1) Since the University of Tokyo is the top brilliant university (almost undergraduate students are brilliant) in Japan, its name, students, teachers, and graduates of the University of Tokyo appear in newspapers, weekly magazines, and on TV, etc. frequently. You can see that brilliant students (the best in the city) from all over the country gather at the National University of Tokyo, like National Peking University. However, there are the following adverse effects.

The Mainichi Shimbun

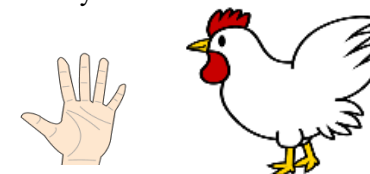

The Asahi Shimbun and Weekly Asahi Shinbun Magazine

Japanese mass media has overemphasized national University of Tokyo and devoted to private Waseda University and private Keio University and it is too soft on private money-powered backdoor universities (entrance examination brokers and expensive medical education fees)

日本の Mass Media は国立東京大学を偏重し、私立早稲田大学及び私立慶應大学に傾倒してみえ、
私立裏口金権大学（入試 Broker と高額な医学教育費）に対して甘くいらっしゃいます

日本におきまして Top の秀才大学が国立東京大学のため、大新聞、週刊誌、TV 等に国立東京大学の大学名、学生、教官、卒業生を非常に多く出されてますが、下記の様な弊害がみられます。国立東京大学には、国立北京大学と同様「国中の（市で 1 番の）秀才」が集まって来ます。

Graduates and teachers of the University of Tokyo show a vulgar work attitude of dropping their heads abruptly toward a person in front of people who don't join the University of Tokyo clique. I also saw a bath head clerk who is vulgar and lacks common sense dropped his head abruptly like a chicken, and the history and tradition I sometimes see at national University of Tokyo on November 2, 2020 at Kagaya Spa Hotel. This academic issue of the University of Tokyo has already been reported to the Japanese Society of Medical Education as an academic harassment on an academic document. And I reported that a graduate of my alma mater National Mie University who belong to the *Sanikai* (Academic clique of graduates from national Mie University Medical School) yelled at me and tapped me on the shoulder in the hospital. However, in the Japanese academic world, it is difficult to deal with these academic harassment and sexual harassment (the *Sanikai* doctor also had an inappropriate relationship). It seems that national International Research Center for Medical Education almost ignores academic reports posted on "chairperson.jp" and gives an advantage not only to the University of Tokyo, but also to other national universities including national Kyoto University and medical educators throughout Japan. [Reference: Academic Papers (A) "Paper on January 22, 2013 (The University of Tokyo, Two universities in the U.S.A.)," Academic Papers (B) "Paper on April 27, 2015 (Australia)," "Paper on May 30, 2015 (Japan Society for Medical Education)" and "Paper on October 17, 2015 (Paris University)," Academic Papers (C) "Paper on August 2, 2016 (World Federation for Medical Education)" and Academic Papers (E) "Paper on November 2, 2020 (Kagaya Spa Hotel, Japan)"]

国立東京大学の卒業生、教官は、国立東京大学学閥以外の人前で「頭をガクッと落とす」下品な勤務態度がみられます。加賀屋旅館でも 2020 年 11 月 2 日、国立東京大学で拝見します歴史と伝統、まるで鶏の様にご自身の頭をガクッと落とされる下品で常識のない加賀屋の湯番頭さんがいらっしゃいました。この国立東京大学の学術問題は Academic Harassment として日本医学教育学会に学術文書として報告済ですが、日本の学術界では同じく私から学会で報告されました私の母校国立三重大学卒業生（三医会）によります「怒鳴って肩をこぞく」「不適切な男女関係」の勤務態度を含む Academic Harassment、Sexual Harassment に対応することが難しく、結果的に国立東京大学医学教育国際研究センターが「chairperson.jp」の学術をほぼ無視され、国立東京大学のみならず国立京都大学を含む日本中の国立大学、医学教育者の学術的立場を優位に導いてみえます。

2) In Japan, mass media's largest academic clique is private Waseda University, so mass media makes a commitment to private Waseda University (70 ~ 80% of undergraduate students are brilliant) and private Keio University (70 ~ 80% of undergraduate students are brilliant). Their names, students, teachers, and graduates of private Waseda University and private Keio University appear in newspapers, weekly magazines, and on TV, etc. frequently. Then there are the following adverse effects. In the 21st century, under the influence of the declining birthrate, 20 ~ 30% of students of private Waseda University and private Keio University have been replaced by mediocrities (under a deviation score 50), and it seems they dominate the universities in the 21st century. In fact, compared to the name of private Seikei University (about 100% of undergraduate students are not brilliant), alma mater of the late Prime Minister Shinzo ABE who had the longest tenure in the history of the Constitution of Japan, and the current Prime Minister Fumio KISHIDA's alma mater, private Waseda University, Waseda's name, students, teachers, and graduates appear in newspapers, weekly magazines, and on TV, etc. more frequently (private Seikei University: private Waseda University = 1:100, data owned by Japanese major newspapers is not disclosed). Regarding the contents of newspapers, weekly magazines, and TV programs, there are many critical articles and news about (the late) Prime Minister Shinzo Abe even after he passed away. (Japanese major newspapers have no social norms or rules as to speaking ill of the deceased.) In contrast, a lot of positive articles and news on Minister Taro KONO (a private university Keio University dropout) are published obviously. Both (late) Prime Minister Shinzo ABE and Minister Taro KONO are mediocre. In contrast to mass media's reporting stance that (Former) Prime Minister Shinzo ABE was mediocre (under a deviation score 50), it has a reporting stance that as if Minister Taro KONO were brilliant (over a deviation score 50). We have the impression that the articles, program titles and profiles on "Waseda" and "Keio" are 100 times more favorable than "Seikei," and it seems that the university brand of "Seikei" is relatively downgraded. Academic homepage "chairperson.jp" has often introduced the reality of Waseda University and Keio University to balance it with Japanese mass media's reports, including this academic paper. [Reference: Academic Papers (E) "Paper on January 6, 2020 (France)" and "Paper on November 2, 2020 (Kagaya Spa Hotel, Japan), Academic Papers (F) "Paper on January 1, 2022 (Azabu Police Station, Japan)" and Paper on January 27, 2023 (U.S.A.)"]

日本におきまして Mass Media の最大学閥が私立早稲田大学のため、Mass Media が私立早稲田大学及び私立慶應大学に傾倒され、新聞、週刊誌、TV 等に大学名、学生、卒業生を非常に多く出されていますが、下記の様な弊害がみられます。21 世紀、少子化の影響で私立早稲田大学及び私立慶應大学は学部生の 2~3 割が（偏差値 50 以上の秀才と言われない）凡才に替わってしまわれ、21 世紀は凡才が支配的な空気の凡才私立大学になってみえます。実際、日本憲政史上最長の在任期間でみえた故安倍晋三総理の母校「私立成蹊大学」の大学名と比較しましても、現岸田文雄総理の母校「私立早稲田大学」の大学名が新聞、週刊誌、TV に出されますのは 100 倍の印象で（大新聞社ご自身の調査 Data は非公開）、また新聞、週刊誌の記事、TV 番組の内容についても（故）安倍晋三総理に関しては他界後も批判的な記事、News が多く（日本の大新聞には、故人を悪く言うてはいけないという社会規範、Rule はありません）、同じく私立大学の凡才、河野太郎大臣（私立大慶應大学中退）に対しては好意的な記事、News を明らかに多く出されています。さらに悪いことには、安倍晋三（元）総理は凡才との報道姿勢とは対照的に、河野太郎大臣があたかも秀才でみえるかのごとくの報道姿勢でいらっしやいます。記事、番組の Title、人物の紹介なども、「成蹊」に比較し「早稲田」「慶應」の名前を日常明らかに好意的に 100 倍出してみえる印象で、相対的に「成蹊」の大学 Brand を貶めてみえますが、「chairperson.jp」では日本の Mass Media の報道と Balance をとりまして、本学術 Paper を含め早稲田大学、慶應大学の実態をしばしば記載しています。

We often come across a lot of blue jokes made by students, teachers and graduates of private Waseda University and private Keio University in our daily lives. We see they show their index finger in front of us and move it prominently. I work with two part-time doctors, a professor and a doctor from private Keio University at the two different medical institutions in the Tokyo metropolitan area. They often make a lot of blue jokes and move their index finger prominently. From my viewpoint of M.D. and Ph.D. of the national university, the medical level has fallen at the two different medical institutions. And the (former) head nurse from national Okayama University made the decision, saying “I asked the professor of private Keio University to quit his part-time job (because he lacked a feeling of tension at work).” Honorary Professor and Ph.D. of private Jichi Medical University and Chairperson of the Subcommittee on Novel Coronavirus Disease Control, Dr. Shigeru OMI (who dropped out of the Faculty of Law at Keio University) was “out of focus” in his talks as a chairperson. Managing Director, Strategy & Planning Division of Yoshinoya Holdings, Masaaki Ito (private Keio University graduate) was unpopular because he had a problem with his human nature as he continued to make blue jokes. We know that each of them worked without a sense of tension. 私立早稲田大学及び私立慶應大学の学生、教官、卒業生では日常暗に感じる下ネタを多く見受けします。人前で自身の人差し指を示し、目立つ様に動かしたりもされます。私の勤務先の医療機関2カ所に、それぞれ私立慶應大学の教授、医師が非常勤勤務されていますが、暗に下ネタを多く話され、指を動かされ、結果的に緊張感が低下し、国立大学医学博士からしますと医療 Level が落ちてしまっています。また国立岡山大学ご出身の（元）看護師長からは「（緊張感のない）私立慶應大学教授には、非常勤勤務を辞めてもらいました」との判断がなされ、日本国政府・新型コロナウイルス感染症対策分科会長、私立自治医大名誉教授、医学博士の尾身茂会長（私立慶應大学法学部中退）は「お話がブレて」しまわれ、吉野家の（元）取締役に至っては「下ネタばかり」の人間性が不評にて、それぞれ緊張感のないお仕事になってみえるのが分かります。

Usually, private Waseda University and private Keio University don't say their university names and distinguish between national universities and private universities, brilliant and mediocre and doctors and nurses. Nurses who change patients' diapers at work with an annual income of about 6 million yen and doctors with an annual income of about 15 million yen who feels uncomfortable changing diapers at work lump "Keio University entrance examination passers" and "Keio Boys & Girls" together. They talk about mediocre people as if they were brilliant people, and call doctors (Dr.) with Mr. like they call nurses with Mr. On the other hand, I have never seen students, teachers, or graduates of private Waseda University or private Keio University call me as a brilliant doctor (M.D. & Ph.D.) of elite national Mie University. Especially, graduates of private Waseda University and private Keio University including nurses, they have a strong sense of rivalry with me (their inferiority that they feel that their brand, knowledge and technique are lower than doctors, they lack a feeling of tension at work and their salaries are lower than elite and brilliant doctors from national university. It is relatively easy to become a nurse, but difficult to become a doctor in Japan. Indeed, a money-powered backdoor mediocre student of private Fujita Health University who paid probably more than 100 million yen to private Fujita Health University for medical expenses failed the National Examination for Medical Practitioners because of "Zero marks" as a result of using a stand-in.

私立早稲田大学及び私立慶應大学では、国立大学と私立大学、秀才と凡才、医師と看護師の区別を付けてみえず、日常は「私立早稲田大学」「国立三重大学」などの大学名をお話になりません。仕事でオムツを替えるのに違和感のない年収 600 万円程の看護師も、仕事でオムツを替えるのは違和感のある年収 1,500 万円程の医師も、「難関慶應大学合格者」、「慶應 Boy & Girl」とひとくくりにしてみえ、さらに凡才を秀才の様な言い方、書き方をされ、医師に対しても看護婦の様な「さん (Mr.)」との言い方、書き方をしたりしてみえます。その一方私に対しては「難関国立三重大学の秀才医学博士、志田幸久先生」との言い方、書き方は、私立早稲田大学及び私立慶應大学の学生、教官、卒業生からはまず拝見したことがなく、特に私立早稲田大学及び私立慶應大学の看護師 Boy、看護師 Girl を含む卒業生からは、国立大学の Elite、秀才医師にたいして強い Rival 意識（医師より下の Brand、医師よりも劣る知識と技術、医師よりも欠ける緊張感、医師よりも少ない給与などについて劣等感漂う雰囲気）が感じられます。日本でも看護師になるのは比較的簡単、医師になるのは難関で、私立藤田医大の裏口金権受験生（凡才でみえ、医学教育費は推定 1 億円以上、非公開）では替え玉受験の結果「0 点」で試験に不合格となり、医師にはなれませんでした。

Manners of Japanese at luxury restaurants and hotels have been getting worse this century. Private Waseda University is proud to have history and tradition of "Bankara (rough and uncouth manner)" for more than 100 years which has a bad reputation and became famous for having conducted a money-powered backdoor entrance examination in Japan in 2018. Private Waseda University is not a first-class university now. In the past, when I went to luxury hotels and restaurants overseas, Chinese tourist groups were noisy. When Hong Kong was returned to China, people in Hong Kong were embarrassed with Chinese tourists' bad manners. And now Japanese talk in a loud voice. By the way, at the private Keio University alumni membership club on the B1 floor of Imperial Hotel Tokyo and the Roppongi Hills Club's Fifty-one Lounge, people who talk in a loud voice are Japanese graduates of private universities like private Keio University and Waseda University or high school graduates. At a luxury barber shop in Hotel New Otani Tokyo, an elderly customer (who doesn't seem to usually read Time, Newsweek, and Asahi Shimbun Weekly AERA) had an idle talk in the shop on March 27, 2023 and Fuji TV caster Osamu SORIMACHI run a political debate program with touching his nose with his index finger and wiping his face with his palm and laughing loudly and vulgarly on April 6, 2013. For your information, when Secretary General of Japanese Communist Party Central Committee, Dr. Akira KOIKE who graduated from national Tohoku University, came to the shop to have his hair cut next to me, the shop was deadly silent. 今世紀高級 Restaurant、高級 Hotel などでの日本人の Manner が悪くなっています。私立早稲田大学は、「バンカラ」の 100 年以上の歴史と伝統を持つ大学と自負してみえまして、日本では元々評判が余りよろしくなく、2018 年に裏口金権入試で有名になられた現在は一流大学でもありません。以前は日本国外の高級 Hotel、高級 Restaurant に出掛けますと中国人 Group の人が騒いでみえ、香港返還後、香港の皆さんも最初中国大陸からの観光客の Manner に戸惑ってみえた様ですが、今は日本人も大きな声を出しています。ちなみに帝国 Hotel 東京の B1F にあります私立慶應大学卒業生会員制 Club や六本木 Hills Club の Fifty-one Lounge で大声を出して騒いでみえたりしますのは、私立慶應大学や私立早稲田大学卒業生などの日本人で、2023 年 3 月 27 日も Hotel New Otani 東京内の高級理容店にて、年配のお客さんが普段 Time、Newsweek、朝日新聞 Weekly AERA も読んでみえない教養のない Level のお話を店内に響き渡る大声で話されてまして、4 月 6 日は私立早稲田大学ご出身のフジ TV Caster がいつも通りご自身の鼻の下を指でこすり、手のひらでお顔を拭きながら番組を進行され、下品で大きな笑い声を出していらっしやいました。ちなみに日本共産党中央委員会 小池晃書記長（国立東北大学ご出身、医師）が Hotel New Otani 東京の理容店にみえた際には、店中が静まり返っていました。

On October 21, 2019, I met Mr. Antoine Roland Billecart who is the 6th owner of a champagne maker “Billecart Salmon” at the Michelin 2-star sushi restaurant "Harutaka", which is put on the champagne lists of the Michelin starred restaurants in France. He said “There is still a long way to go for Chinese guests who go to high-class restaurants around the world to learn manners, and they need education. China has not had a culture of manners for about 200 years. When I enjoyed a dinner at the Michelin 3-star French restaurant “The Restaurant at Meadowood” at Napa in USA on May 5, 2014, a Chinese group did not

speak loudly, but everyone in the group watched their smart phones from start to finish on the dinner table. By the way, Michelin 2-star sushi restaurant “Harutaka” had a mature atmosphere on October 21, 2019 because there was no guest like an NHK announcer (private Keio University graduate, mediocrity) who used casual Japanese “*Ichchaoukana* (I will go)” to a World Cup Rugby match? as if he were a schoolchild on the NHK News program “News 9” on October 20, 2019 which made us embarrassed. It is said that “NHK announcers speak beautiful Japanese on TV and they are a role model for Japanese people in the 20th century, but it is no longer said so in the 21st century.

It seems difficult for Japanese Prime Minister and President of the Liberal Democratic Party, Mr. Fumio Kishida, private Waseda University alumni to run the government administration based on “Protect people’s life” or “Combat money-powered backdoor entrance examinations.” Because he pleases “Private Teikyo University, private Tokyo Medical University, and private Waseda University” which are famous three universities for the backdoor entrance examinations in the 21st century. By the way, Prime Minister Fumio KISHIDA visited private Waseda University to exchange opinions on his own political management with private Waseda University alumnus in the university campus when the approval rate of the Kishida Cabinet was sluggish on November 21, 2022. After that, an owner of a ginza night club (piano bar) who graduated from private Waseda University was approved as an official candidate for the Diet member of the Liberal Democratic Party. (It is a rare case to select a piano bar’s owner as a candidate for the Diet member not only in the United States but also in Japan.) Prime Minister Fumio KISHIDA selected his eldest son, Shotaro KISHIDA (private Keio University graduate, who makes many blue jokes) for the post of secretary to the prime minister at the young age of 31, despite the criticism of “public-private confusion.” It is reported that “when Mr. Shotaro KISHIDA accompanied overseas on his father’s official trip, he used official cars for his sightseeing and enjoyed shopping” as a result of his work without a feeling of tension of a graduate of a private Keio University. He set a bad precedent as a secretary to the prime minister in Paris, London and Ottawa in 2023. “Making many blue jokes” shows his lacked humanity and his ability as a secretary is poor.
