Harvard Krokodiloes 2016  
Harvard University  
MA, USA

Dear Harvard Krokodiloes,

I enjoyed seeing the Harvard Krokodiloes at the Hotel Seiyō Ginza Tokyo (1987~2013) on June 21, 2007 for the first time. In 2008, I talked on the “Harassment” to the Harvard Krokodiloes by handing 12 postcards of mine (for 12 members) including my comment at the Ritz Hotel Paris on April 29, 2005. [The Sanikai (Alumni Association of Mie University Faculty of Medicine) and Kyoto University fired me and took my name off the list of medical office in Mie Prefecture in 1997, after having regarded my clinical records as a wrong diagnosis (“Goshin”) about my clinical records and cut my salary by half.] In 2013, I asked your Harvard University’s two professors about the backdoor. However, they did not send any response to our questions. In 2015, two professors of the University of Tokyo gave me “Academic Harassment” to expel me from the Japan Society for Medical Education in the 21st century after having said and written that they had never heard of my clinical practice, research, or education. The “Harassment” did not stop, so everything changed. 1) I resigned as the team doctor of the Japan Table Tennis Team in 1994 2) I could not become not only a Fellow but also a Certified Board Member of the Japanese Society of Internal Medicine 3) I could not take part in the Japanese societies of medicine and buy a substantial number of medical books. 4) I could not write full medical papers. And these situations have continued up to 2016. Dr. Shinya Yamanaka became a winner of the Nobel Prize for his iPS research and Dr. Hiroshi Matsumoto, President of Kyoto University said “I nearly wept for joy” on November 8, 2012. Kyoto University and Prof. Yamanaka have been spoken highly by Japanese mass media and increased the number of posts and funds for their research. **On the other hand, I have been received continued (not finished) “Academic Harassment” from the Sanikai, Kyoto University and the University of Tokyo. “I (Dr. Shida) nearly wept for my misfortune.”**

Recovery from depression (melancholia)  
Dr. Matsumoto and Dr. Yamanaka

**L’Espadon: Main Dining of Ritz Hotel Paris (April 29, 2005)**

Dr. Shida provides an explanation to L’Espadon

“Last Luly (2004), Mr. John Kerry announced on TV ‘We will end the backdoor draft of National Guard and Reservists.’ It is worthy of notice that the Democratic Party recognized the backdoor draft of troops in the U.S.A. Last February (2005), I talked with the president of CHANEL JAPAN, Mr. Richard Collasse at the Roppongi Hills Tower Tokyo. The audience of 500 listened to our questions and answers ‘Japanese backdoor doctors have bad effects on Japanese manners.’ My study, the ‘**Doping - Backdoor Theory**’ is penetrating into famous scholars and scientists in Japan now. The Ritz Hotel Concierge is said to cure all. But we cannot cure the backdoor in our society immediately.”

By the way, this is my comment for the Harvard Krokodiloes on May 31, 2008. “I thought the performance was a little rough, though the harmonies were almost good – even a little better than a Japanese jazz singer, Shigeeko Suzuki whom I saw at the Roppongi Live Stage.” Neither good nor bad, the Harvard Krokodiloes has rejected a female member unlike the Vienna Philharmonic Orchestra to protect your harmony (voices). And the most impressive song of mine at the Harvard Krokodiloes concerts since 2007 is one solo Japanese (language) song which was “100 marks Japanese pronunciation” after studying Japanese culture at Harvard University. Harvard Krokodiloes, if the members have spare time during your stay in Tokyo in the near future, I would like to offer each member a glass of the “**Chairperson Cocktail**” at the Roppongi Hills Club Japan. Please contact me by e-mail (To yukihisa.shida@mie-university.com). The Roppongi Hills Club which is one of the three most prestigious members’ clubs (Ark Hills Club, Roppongi Hills Club and American Club) in Japan gives an announcement “The Club is a gathering place for lovers of culture and the arts, active in a wide variety of fields, ...” on its official homepage. You are sure to feel the “Convection of Intelligence and Sensibility” including “**My Way**” in Japan at my home ground in the 21st century. The seven spectacular restaurants, stunning bar and lounge, and sophisticated banquet room at the entire 51st floor of the Roppongi Hills Tower Tokyo can make our “**Chairperson Cocktail**” perfectly which is not on the menu but is the world-class.

Sincerely,

Yukihisa SHIDA (M.D., Ph.D., Mie University, Japan)  
The Doctor and Chairperson of Sports — the fastest pace in history  
Team Doctor of the Japan Table Tennis Team (1990-1994)  
Chairperson of the International Table Tennis Federation Sports Science Congress (1991)
