Mr. Javier Cano

General Manager
Ritz-Carlton Los Angeles
Los Angeles, USA

Front Office Assistant Manager

Restaurant Manager
Four Seasons Hotel San Francisco

Hotel Manager

Rooms Operations Manager
Ritz-Carlton Hotel Los Angeles

Cocktail “Chairperson”
InterContinental Hotel Los Angeles

Dear Mr. Cano,

I stayed at the Four Seasons Hotel San Francisco on July 28, 2022, Bellagio Hotel Las Vegas on July 29 and 30 and Ritz-Carlton Hotel Los Angeles on July 31. I appreciate your kindness in allowing me to stay at the Four Seasons Hotel San Francisco and to give a comment to you, as I did at Osaka University, on August 1, 2022.

Mr. Konrad Gstrein: General Manager of the Four Seasons Hotel San Francisco (July 29, 2022)

Mr. Javier Cano: General Manager of the Ritz-Carlton Hotel Los Angeles (August 1, 2022)

Dr. Shida provides an explanation to Mr. Cano

Some strange incidents have occurred to me (Dr. Shida) in Japan since March, 2022 during the Covid-19 pandemic.

Imperial Hotel Tokyo (Leading Hotels of the World)

General Manager Yukio KANEO made an unusual decision to replace young hotel workers with middle age hotel workers contrary to common sense of five-star hotels in 2021. Middle age hotel workers treated me (Dr. Shida) who is a member of the Imperial Hotel member’s club “Golden Lion Club” which is a night lounge with piano live music where Japanese prime ministers and ministers also visited with bad manners. Reference: Academic Paper “Paper on January 22, 2013 (The University of Tokyo, two universities in the U.S.A.)” on our academic homepage “chairperson.jp”

A male hotel worker dropped his head abruptly in front of me (the hotel guest) more than 10 times like professors of the University of Tokyo did at the hotel's fitness club.

A female hotel worker spined around her ankle in front of me (the hotel guest) at the hotel's fitness club.

Male hotel workers talked with me (the hotel guest) touching their noses and ears or back hair like a banker of Hyakugo Bank in Mie Prefecture at the hotel's fitness club.
Reference: Academic Paper "Paper on November 5, 2018 (Hyakugo Bank, Japan)" on our academic homepage "chairperson. jp"

Male and female workers talk with laughter each other loudly at the entrance of the lobby lounge and the casual restaurant.

A male hotel worker made an explanation to me about an elaborate dish I ordered at the sky buffet restaurant impolitely as if I were a high school student. "*Namanokai-nai. Imaha* (no raw shellfish, now)"

The hotel's big rectangular stone with letters of "Imperial Hotel" at the main entrance is broken and dirty, and the roof garden is weedy.

And female hotel telephone operators usually answered only by saying "あ〜 (A〜)" or just "はい *Hai* (Yes)" when I told the above hotel workers' bad manners to them about ten times.

I telephoned the Imperial Hotel Tokyo on July 16, 2022. "Today (July 16, 2022), when I received training wear from a middle age male staff at the Fitness Club of the Imperial Hotel's reception desk, he dropped his head abruptly in front of me again. Last month alone, on June 28, July 9, July 11 and today July 16, 50cm ~ 3m in front of me, some male or female staff dropped his/her head abruptly. General Manager Yukio KANAO knows it's a recurring event, so I gently warned him today, but he seemed to be puzzled in front of me this time. Unfortunately, General Manager KANEKO seems to take no action for the male staff's bad business manner at the fitness club... of the Imperial Hotel in 2022. As you know, many of the fitness club's current staff are middle age, so he (a staff member) might have forgotten. If there is a security camera at the reception of the Fitness Club, I want the hotel to check it. It happened at around 8 pm today. I'm sure that the Imperial Hotel will be able to see the male staff drop his head abruptly in front of me (the hotel guest) like the 5th Chief Executive of Hong Kong John LEE had dropped his own head abruptly two times in front of Chinese President Jinping XI once before. The luxury hotel industry looks as small as the world of doctors of Japanese national universities. The Peninsula Hotel Tokyo near the Imperial Hotel says, "If our carpets get dirty, we will change them immediately", while the big rectangular stone with letters of 'Imperial Hotel Tokyo' at the hotel main entrance looks quite damaged and dirty. Thank you."

President of the People's Republic of China and General Secretary of the Chinese Communist Party 习近平 XI Jinping
The 4th Chief Executive of Hong Kong 林鄭月娥 Carrie Lam Cheng Yuet-ngor
The 5th Chief Executive of Hong Kong 李家超 John LEE Ka-chiu

“It is difficult for him to control the hotel’s employees.” (?)
Imperial Hotel Tokyo and General Manager Yukio KANEKO

Front: Dirty stone **Back: Ragged stone**
A big rectangular stone with letters of “Imperial Hotel” at the hotel main entrance

“The Imperial Hotel Tokyo since 1890 will reopen its new building in 2036. However, transferring the hotel workers correctly may be an urgent necessity in 2022. Foreign-affiliated top-class hotels opened one after another in Tokyo in the 21st century. The Imperial Hotel has been sinking both in terms of software and hardware relatively.”

Hotel New Otani Tokyo (Forbes Travel Guide: total 9 stars hotel), The Okura Tokyo, Ritz-Carlton Hotel Tokyo, Peninsula Hotel Tokyo and Tokyo Baycourt Club Hotel Male and female hotel workers said to me (the guest) repeatedly, “*Naruhodo, Naruhodo* (I see, I see)” or “*Daijoubudesuka?* (Are you OK?),” “*Daijoubu?* (Are you OK?)” on the phone and at the reception, the fitness center including indoor & outdoor pools and the restaurants. Hotel New Otani Tokyo always appeals “Our breakfast and outdoor pool... are ‘最強 *Saikyo* (strongest)’ among hotels in Tokyo.” However, its *Omotenashi* (Hospitality) with Japanese language is not strong, too. Reference: Academic Paper “Paper on January 6, 2021 (Roppongi Hills Club, Japan)” on the academic homepage “chairperson. jp”

Hotel New Otani Tokyo

Hotel’s PR “Strongest (Ultimate) Breakfast”

**Tokyo Baycourt Club
(Member's Hotel)**

French Restaurant "mal D'amour" and Chef Kimitaka NIIMURA

It is a strong point that Chef Niimura of a fine restaurant "mal D'amour" of the Tokyo Bay Court Club is a former Premiere Chef of the Joël Robuchon Restaurant Tokyo (Michelin Three-star Restaurant) and restaurant guests' (Hotel Members') average annual income is said to be about 30,000,000 yen (230,750 US \$). On the other hand, it is a weak point of the restaurant and the hotel that the manager of restaurant "mal D'amour" says to me, "Daijoubudesuka? (Are you OK?)," "Daijoubudesuka? (Are you OK?)," repeatedly. Of course, it makes us (the hotel members) unhappy.

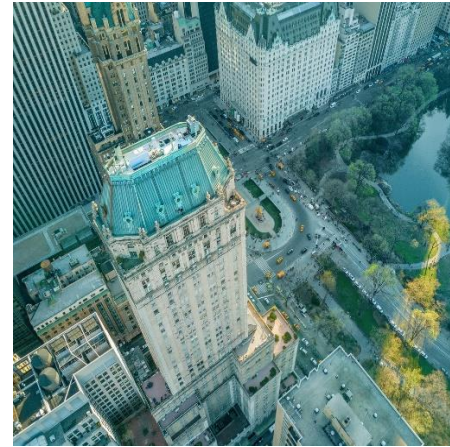

Four Seasons Hotel Otemachi, Tokyo

The Bar VIRTU of the Four Seasons Hotel Otemachi held a two-day cocktail event with a guest bartender every month in 2022. And the Bar VIRTU called a guest bartender who is a Champion at the Campari Cocktail Competition Asia 2018 and a Campari Group Brand Ambassador on July 16 and 17, 2022. When I visited the Bar VIRTU on July 17, he couldn't talk about my cocktail "Chairperson" since 2004 and his original Campari cocktails at the bar counter. He said only "あ~ **CAMPARI** ~ (A~ ~)" to me. I hoped the Four Seasons Hotel Otemachi, Tokyo would bring a bartender who can offer a courteous customer service to the guests of the Four Seasons Hotel from next month. I sometimes meet with Champagne Brand Ambassadors and real foreign ambassadors in Tokyo. And we usually see their polite manners.

Male and female hotel workers said to me (the guest), "あ! (A!)" "あ! (A!)", "Daijoubudesuka? (Are you OK?)", "Daijoubu?(Are you OK?)", "Konnichiwa (Hello)!", and "Konbanwa (Good evening)!" repeatedly on the phone or at the reception, the bar, and the fitness club, and in the corridor... On December 12, 2013, a young female guest said "Hello~ ~ ~" to a male worker in a small elevator at The Pierre New York a Taj Hotel (a long-established hotel since 1830 and «former» Leading Hotels of the World) because an elevator girl greeted to the hotel guest "Hello!" in the small elevator. Then the elevator girl noticed that the hotel guest looked unhappy with the hotel worker's greeting, "Hello!" I wrote the above matter in a questionnaire mail for the guests to the general manager of Four Seasons Hotel Otemachi on July 26, 2022.

**Four Seasons Hotel Otemachi, Tokyo
(34F ~39F)**

The Pierre New York a Taj Hotel

The University of Tokyo Hospital

I have uploaded an academic paper “Paper on May 11, 2022 (The University of Tokyo)” on our academic homepage “chairperson.jp”. About misdiagnosis at the hospital, a female doctor who graduated from national Kyoto University wrote in her book “Medical Education of Harvard University” that a large number of incorrect diagnosis have been found at the Massachusetts General Hospital when she worked as a research fellow. And the University of Tokyo Graduate School of Medicine are totally different from the 60,000,000 yen (461,500 US \$) greenhorn backdoor group of a father who worked at the Ministry of Education, Culture, Sports, Science and Technology, his son (mediocrity), Chairperson and President of private Tokyo Medical University, and a Diet member (Policy Adviser: the clique of private WASEDA University) who fell into the hands of the law and went there “Asoko” (the criminal’s dining room). They say that “From Michelin 3 star restaurants in Paris and La Tour d’Argent Paris to there “Asoko” (the criminal’s dining room),” however, Dr. Masahiko USUI, the president of the private Tokyo Medical University, was indicted without being arrested on a charge of having conducted money-powered backdoor admissions because of old age.

About a topic “Terrible,” please refer to an academic paper “Paper on October 17, 2015 (Paris University).” I touched on the University of Tokyo’s International Research Center for Medical Education and former Terrible’s Hotel Las Vegas.

About a topic “Children’s Hospital,” an executive official (a graduate of national University of Tokyo) at the Ministry of Foreign Affairs, Japan looked down on Foreign Minister Makiko TANAKA (private Waseda University «Tokyo» graduate) and ignored documents on personnel transfers of executive officials created and stamped by her in 2002. He said with a laugh that it was made by “(Princess of) Children's Bank.” Japanese know about a precedent that the foreign minister was never accepted by executive officials at the Ministry of Foreign Affairs.

The University of Tokyo Hospital in the University of Tokyo Campus

She and Prime Minister Fumio KISHIDA are graduates of private WASEDA University. Former Foreign Minister Makiko TANAKA

The Bank of Japan

The cost of living in Japan increased by 2.0 % in April 2022 because of soaring prices of resources around the world and so on. It made President Kuroda of the Bank of Japan happy and we saw his smile on TV. However, he used improper words at his lecture on June 6, 2022 and he took back his words at a meeting of the Finance and Finance Committee of the Japanese Diet on June 7, 2022. He said “Tolerance for higher prices among Japanese people has been increasing now.” Unfortunately, he might be overconfident in 2022. Reference: Academic Paper “Paper on November 20, 2016 (Philippines)” on the academic homepage “chairperson.jp”

“President Kuroda looked unconfident (no intense eyes) on June 7, 2022 just after overconfidence he showed the previous day.”

The Bank of Japan and President Haruhiko KURODA

American Express Japan

AMEX Platinum Card lowered my credit limit from 10 million yen (87,000 US \$) to two million yen (17,400 US \$) suddenly in the winter of 2022. So I had a chat with a female hotel staff about this fact at the Imperial Hotel Tokyo Golden Lion Club, “My credit limit of AMEX Platinum Card dropped to two million yen (17,400 US \$) from 10 million yen (87,000 US \$) after I warned a telephone center staff and her direct supervisor of AMEX Japan because the staff used casual Japanese language to me (a customer) like she talked to a child.” On the other hand, my credit limit of the VISA Platinum Premium Card has not changed (10 million yen «87,000 US \$»). Two million yen (17,400 US \$) credit limit is not safe for Kishida *San* (Mr. Kishida), too.” (Prime Minister Fumio KISHIDA «private Waseda University graduate» comes to a barbershop I visit regularly to get a haircut in 2022.) Then after all, AMEX recovered my credit limit to more than 10 million yen (87,000 US \$) in the spring of 2022.

Japanese Prime Minister Fumio KISHIDA

Greeting to Japanese customers

“What we American Express cherish is to always promise to offer services from the customer's point of view and support each person's rich experience. Since its foundation in 1850, that attitude has not been shaken. (snip) The hearts of our customers are the starting point for our service. We hope that you will continue to trust us and that you will always receive American Express services with peace of mind. We will continue to walk with our customers.”

「私たちアメリカン・エクスプレスが大切にしているもの。それは、常にお客様の視点に立ったサービスをお約束し、一人ひとりの豊かな体験をサポートすることです。1850年の創業以来、その姿勢が揺らいだことはありません。(中略) お客様の心の中こそが、私たちのサービスの出発点です。引き続き信頼していただけるように、また、常に安心してアメリカン・エクスプレスのサービスを受けていただけるように。これからも、お客様とともに歩き続けます。」

Stephen J. SQUERI, Chairperson and Chief Executive Officer of American Express International, Inc.

The Tokyo Kanda Driver's License Center (the Metropolitan Police Department, Tokyo)

A female staff of the Metropolitan Police Department (Secretary: Mr. Itaru NAKAMURA) said to me “*Passport-mottenai* ? (Don't you have a passport ?)” like she talks to a high school student at the reception counter of the Kanda Driver's License Center in Tokyo June 13, 2022. When I pointed out her bad business manner to her, she said “I didn't say like that” and a male staff next to her pretended not to hear our conversation. Then I said to her “If you, a police officer of the Metropolitan Police Department, denies what you said today, please use more polite language. I heard another male police officer of the Metropolitan Police Department said “*Chatte*” in a bad business manner to other citizens of Tokyo.” I told them to send my comment to the director of the Kanda Driver's License Center, who sees a poster at the entrance saying, "Recording is not allowed at this center" which is put up under the name of the director of the Kanda License Center. If police officers of the Metropolitan Police Department who are high school graduates and carry out everyday tasks that even high school students can do, it doesn't seem that the Metropolitan Police Department gets the right persons in the right jobs. ”

警視庁

Metropolitan Police Department

“The policemen are honest” (??)
Secretary Itaru NAKAMURA

NHK (Japan Broadcasting Corporation)

On July 14, 2022, Minoru AOI, NHK's announcer and news caster, a graduate of a private Keio university explained COVID-19 virus with a lack of a feeling of tension (“*Surinukechau* «Sliding through antibodies»” and “*Osaenikuku-shichatteru* «It becomes difficult to control the infection»” like children's Japanese) on the NHK program “News Watch 9,” same as a part-time TV newscaster of TBS (Tokyo Broadcasting System) Caster Ryoji ISHII. It is a fact that many people get infected with and die of COVID-19 around the world. We can't confirm if both news casters' deviation scores are above 50, so we are sorry to judge that they are “mediocre (below 50)” in Japan. Reference: Academic Paper “Paper on November 2, 2020 (Kagaya Spa Hotel, Japan)” and “Paper on March 7, 2021 (Tsu Tax Office, Japan)” on the homepage “chairperson. jp”

On July 17 and 27, 2022, NHK program “News 7” invited a professor of the most famous money-power backdoor university in Japan, private Tokyo Medical University and he explained Covid-19. From the viewpoint of medical education, it is not good because NHK which is the only Japanese major public TV company has contributed not only to the most famous money-powered backdoor university, private Tokyo Medical University but also to the Ministry of Education, Culture, Sports, Science and Technology and the Japanese Diet which conducted the money-powered backdoor admission. We should be careful of students, graduates and teachers of “*Koko*” private Tokyo Medical University, private Waseda University and private Teikyo University in particular in the 21st century. I have never heard the presidents and chairpersons of private universities and ministers of Education, Culture, Sports, Science and Technology and prime ministers of Japan said that their universities and graduates conduct backdoor admissions for which mediocrities pay more than 60 million yen together with the Diet, and the Ministry of Education, Culture, Sports, Science and Technology. Reference: Academic Paper “Statement on September 1 and 20, 2018 (Mass Media, World) on the homepage “chairperson. jp”

東京医科大学
TOKYO MEDICAL UNIVERSITY

“Mediocrity”

“Mediocrity”

“NHK for private Keio University”(?)

“Foolish (*Ahokusai*)”

Chairperson of NHK Terunobu MAEDA

We can't confirm if both news casters' deviation scores are above 50.
They passed the entrance examinations by recommendation.

(Diversity in Japan)

Announcer Minoru AOI Announcer Ryoji ISHII

A mediocre NHK announcer spoke childish Japanese about Covid-19 on the NHK news program. Is this no problem??

“*Surinukechau* (Sliding through antibodies)” and “*Osaenikuku-shichatteru* (It becomes difficult to control the infection)” are childish Japanese used by Announcer AOI on a NHK news program. It was imprudent of him to use such language that may make Covid-19 patients including the dead and us, medical workers around the world uncomfortable.

TOYOTA Motor Corporation

In 2021, TOYOTA admitted that after-sale safety inspection data were manipulated to meet legal standards at a Lexus dealer... and illegally passed the vehicle check at 12 TOYOTA bases in the whole company. TOYOTA has normal testing equipment. Many workers have no morals at all! And Aichi Prefectural Police sent papers on another different matter happened at a TOYOTA base to prosecutors in Aichi Prefecture where TOYOTA is located on February 8, 2022. However, President Akio TOYODA who is a graduate of private Keio University didn't attend a press conference of apology in contrast to many TOYOTA's company CMs. We Japanese regret to hear that TOYODA, one of the world's biggest automobile companies, concealed the falsifications of vehicle inspection results on Lexus... and deceived consumers worldwide again. According to some specialists, President Akio TOYODA may have thought that it was necessary for Toyota to manufacture a powerful automobile in order to win the F1 race (Toyota needs only technology).” Unfortunately, he didn't know our academic homepage ‘chairperson.jp’ which opened on January 26, 2016 and includes the ‘Chairperson 20th Anniversary Treatise,’ like (former) TOYOTA Managing Executive Officer Julie Hamp from the U.S.A. who was arrested in Japan on June 18, 2015 for allegedly having imported tablets of painkiller oxycodone without permission. Reference: “Chairperson 20th Anniversary Treatise ‘My Way since 2006’ and “Paper on January 28, 2017 (U.S.A.)” on the academic homepage “chairperson.jp”

“Keio Boy (*Obocchan*) with wealthy parents is an ingenious youth.”
TOYOTA CM with President Akio TOYODA

JR-EAST (East Japan Railway Company)

I have uploaded an academic paper “Paper on September 1, 2020 (JR-EAST, Japan)” on our academic homepage “chairperson. jp”.

A train conductor of an express train announced information in first-class and non-reserved trains 10 times (normally 3 times) within 90 minutes in the Tokyo metropolitan area on May 18 and 25, 2022.

A station staff kept yelling at a passenger who dropped his wallet on the railroad track at the platform of the Shibuya Station in Tokyo like *Yakuza* (Japanese Mafia) does. The passenger pressed the emergency button and delayed the train for 2 minutes on July 4, 2022. Shibuya Station sent the passenger to the police station immediately. On the other hand, JR-East didn't transfer the *Yakuza*-looking station staff to another department promptly. It was a big news in Tokyo. We wonder if President Yuji FUKASAWA of JR-East thinks the company assigns the right people to the right jobs. Reference: “Paper on January 26, 2021 (Japan Society of Complete Physical Examination)” on the academic homepage “chairperson. jp”

He doesn't know real activity (?)
President Yuji FUKASAWA

The Coronavirus Disease (COVID-19) Committee of the Japanese Government and COVID-19 Expert

Chairperson of the Coronavirus Disease (COVID-19) Committee, Dr. Shigeru OMI (private Jichi Medical University graduate) misunderstood the official view of the Japanese government about Covid-19 pandemic. He said on January 19, 2022 “From now on, the keyword will be to limit the number of people, not to control

the flow of people,” which contradicted the government's view. It surprised not only public health experts but also the governor of Tokyo Yuriko KOIKE (national Cairo University graduate). And in his own remarks about the epidemic waves in Japan, there is a noticeable blurring in the interpretation of the definition of the epidemic wave. He probably lacks a feeling of tension like graduates of private Jichi Medical University (Japan). Reference: “Paper on January 25, 2015 (United Kingdom, France)” on the academic homepage “chairperson. jp”

Governor Yuriko KOIKE

“His work lacks a feeling of tension” Dr. Shigeru OMI

Dr. Tetsuya MATSUMOTO (national Nagasaki University graduate) who has been a professor of private Tokyo Medical University (the most famous private money-powered backdoor university in Japan in the 21st century) since 2005 to date and also a professor of private International University of Health and Welfare since 2019 to date. Most universities appeal that they cannot trust new medical colleges established less than 10 years ago and have no achievements, like newly created airline companies in the 20th century. (Too early for them to appear on the mass media...)” However, Dr. Tetsuya MATSUMOTO often appears on TV news programs and explains COVID-19 as a professor of private International University of Health and Welfare which opened a medical school on April 1, 2017. Probably, he ignores the private Tokyo Medical University's Scandal, “Illegal entrance examinations and inappropriate entrance practices in the 21st century” and forgets about private International University of Health and Welfare's medical school opened on “April 1, 2017.” **Please be careful of students, graduates and teachers of “Koko” private Tokyo Medical University, private Waseda University and private Teikyo University in particular in the 21st century. I have never heard the presidents and chairpersons of private universities and ministers of Education, Culture, Sports, Science and Technology and prime ministers of Japan said that their universities and graduates conduct backdoor admissions for which mediocrities pay more than 60 million yen together with the Diet, and the Ministry of Education, Culture, Sports, Science and Technology.** Reference: “Reports and Afterword on Private Tokyo Medical University's Scandal, ‘Illegal entrance examinations and inappropriate entrance practices in the 21st century’” in “Chairperson 30th Anniversary Letter” on the academic homepage “chairperson. jp”

Dr. Tetsuya MATSUMOTO (national Nagasaki University graduate)

Professor of private Tokyo Medical University (the most famous money-powered backdoor university) and private International University of Health and Welfare, Specialist of infectious disease and infection control and prevention and Vice Chairperson of the Japanese Society of Infection Control and Prevention

The private Teikyo University Hospital (One of the two famous private money-powered «sixty million yen » backdoor universities in Japan in the 21st century)

A patient was admitted into the private Teikyo university hospital for more than one week. However, a doctor in charge neither wrote a Patient Referral Document to me (M.D. and Ph.D of national Mie University) nor gave a necessary prescription to the discharged patient.

帝京大学
Teikyo University

Private Keio University (Tokyo)

A professor of private Keio University and a part-time doctor (private Keio University graduate) at my work place, medical institution were absent from the ward when they were required to come to work. A professor of private Keio University (a national Kyoto University graduate) took a day off because the number of Covid-19 patients was increasing! and a part-time doctor (private Keio University graduate) made a phone call to someone (outside the hospital, unidentified) on the mobile phone time and time again and kept talking on the hallway in front of an on-call room of the ward. We (doctor and medical staff) have been busy with therapy at my work place since Covid-19 pandemic started, especially when group infections occurred. Reference: “Paper on November 2, 2020 (Kagaya Spa Hotel, Japan)” on the academic homepage “chairperson. jp”

There is an old saying in Japan “We also want to get the help of a cat” which means “We’ll take all the help we can get.” Former US President Barack OBAMA may call the two part-time doctors from private Keio University “Fugitive soldiers (deserters).”

Former US President Barack OBAMA

A part-time doctor (private mediocre university graduate) who works only one day a week sometimes writes medical records in very different blue letters.

A part-time doctor (private Keio University graduate) perhaps forgot findings on an in-patient suspected to have tuberculosis found by CT chest scan the patient got at the hospital. Then an attending physician who graduated from national Akita University reported this trouble to the head nurse of the hospital (239 beds).

A part-time doctor (private Keio University graduate) sometimes forgets to sign in-patients’ clinical records in spite of getting a warning from the hospital manager.

A part-time doctor (a private mediocre university graduate) greets me (a national brilliant university graduate), “Hello,” “Hello,” every time he passes me (a national university graduate) in the corridor and on the stairs in the hospital.

A part-time doctor (a private Keio University graduate) spoke loudly in the staffroom cafeteria and didn’t close the entrance door. There is a rule that we should open windows, close the entrance door and not speak loudly at the staff cafeteria in the hospital during the Covid-19 pandemic. He sat down directly below the air conditioner in the staff (doctors, nurses...) dining room and lowered the temperature of the air conditioner because he wanted to feel cool. To make matters worse, he did not turn up the temperature after his 30 minutes lunch despite sitting down in the staff dining room and working only one day a week. He had better change his seat from directly below the air conditioner to another seat before turning down the temperature of the air conditioner.

As a result, the two part-time doctors from private Keio University who usually make blue jokes indirectly are half-men who cannot see anything around them including doctors who graduated from national Chiba University, national Mie University... Then it can't be helped that we judge them from the private Keio University harshly. The medical institutions, hospital... are not the places for mediocre private Keio University male teachers or graduates to make blue jokes about brilliant national university female graduates. Of course, it's annoying us, brilliant national university graduates. Further medical education is needed for them to suppress their blue jokes which annoy national university brilliant graduates at private Keio University which is dominated by mediocrities. Generally speaking, doctors, nurses and assistant nurses who graduated from private schools or high schools like blue jokes (on nurses...) at medical institutions.

As General Managers of the Four Seasons Hotel San Francisco and Ritz-Carlton Hotel Los Angeles know, Imperial Hotel Tokyo is a long-established hotel since 1890 and said to be a bottom-up style hotel unlike the Four Seasons Hotel or Ritz-Carlton Hotel which have the top-down style. And a financial institution's stress testing is well known in the stock market and super stress was created by Covid-19 after March 2022. I think it is more difficult to get the right person in the right place now at the Imperial Hotel Tokyo, JR-EAST, NHK...in Japan. At the same time, however, staffs of the Roppongi Hills Club, Japan and a small supermarket, "My Basket" which belongs to the AEON group (the biggest retail business company in Japan) near my apartment "Tennoz View Tower" in Tokyo have good manners who usually don't say "Daijoubudesuka? (Are you OK?)," "Chatte"... to customers. I sent a questionnaire mail for the guests to the general manager of the Roppongi Hills Club and called the AEON company to praise their employees' Japanese language three times. It is a good news during the Covid-19 pandemic in Japan. General Manager, poor work attitude with a lack of a feeling of tension of private university (private Jichi University, private Tokyo Medical University, private Teikyo University and private Keio University,...) graduates and teachers continues as usual with or without the Covid-19 pandemic unlike ordinary workers of major casino hotels in Las Vegas or first-class hotels around the world. And they say the Imperial Hotel Tokyo is a Japan's leading hotel and gives good services to the guests, and NHK announcers spoke beautiful Japanese before Covid-19 pandemic in Japan. It is over now. Reference: Academic Paper "Paper on January 6, 2021 (Roppongi Hills Club, Japan)" on the academic homepage "chairperson.jp"
