Executive Assistant General Manager  
Four or Five-star Hotel  
Milan, Italy

Dear Assistant General Manager,

Teatro alla Scala

This is the first time for me to send a letter about our study to your hotel. I am the Doctor and Chairperson of Sports in Japan. It is my pleasure to introduce our academic homepage “**chairperson.jp**” which is visited from all over the world excluding China (?). For your information, I have informed about the “**Chairperson 20th Anniversary Treatise**” which is an unconventional style (not a full paper style) to the professors of the University of Tokyo in 2012, Harvard University in 2013, Oxford University in 2014 and Paris University in 2015 for the “**Doping-Backdoor Theory**,” the general managers or assistant general managers of hundreds of four or five-star hotels around the world for the “**Chairperson Cocktail**” and the regular members of the Vienna Philharmonic Orchestra for “**My Way**” in (2010 and) 2016. “There are one and only theory and cocktail for universities and hotels in the 21st century.”

In Japan, Waseda University, the sole first-class private university, does not use the entrance-examination broker and 70 ~ 80% of the undergraduate students have a brain. Dr. Kaoru Kamata, (former) President of Waseda University and his henchmen spoke ill of me at Waseda University, “We (Waseda) can’t accept Dr. Shida’s way of conducting his research. He promotes his research on the floor, not on the stage ...” behind my back on July 10, 2006. From a bitter (not sweet) view point, three-fourth of undergraduate students of Waseda University are strong and one-fourth of them are weak, like Keio University which is the third-class private university to use the entrance-examination broker. “Quarter Weak (*San-kyou, Ichi-jaku*).” The University of Tokyo is the best one among about ten first-class public universities which does not use the entrance-examination broker and 100% of the undergraduate students have a brain. Two professors of the University of Tokyo gave their historical and traditional ‘Academic Harassment’ to me at the University of Tokyo. They dropped their head abruptly towards me on March 14 and May 22, 2012. For your reference, Fukushima University and my old school, Mie University are near first-class public universities which do not use the entrance-examination broker and 90% of the undergraduate students have a brain.

Assistant General Manager, it would be grateful if your hotel is to know our cocktail “**Chairperson**.” No response will be needed, had been reported to the Board of Directors of the Japan Society for 30, 2015. Please feel relieved, but a little.

I am arranging the following travel itinerary, a business trip to Milano from March 22 to 25 and will stay at the Armani Hotel Milano (?) on 22 March and Bvlgari Hotel Milano on March 23 and 24, 2024. I post the Academic Papers (G) “Paper on January 1, 2024 (Keio University, Japan)” on the academic homepage “chairperson.jp”. **I am aware of their business manner to private Keio University (70-80% of brilliant undergraduate students and 20-30% of mediocre undergraduate students, with an atmosphere dominated by mediocrities) which holds in high regard for Mr. Yukichi FUKUZAWA, a founder of private Keio University, who had an ideology that included white supremacy.** In addition to the movie “Interceptor” that I mentioned earlier, this time I am also referencing the movie “Armageddon” with my explanation in the academic paper. [Reference: Academic Papers (F) “Paper on April 17, 2023 (Malaysia)” on the academic homepage “chairperson.jp”]

An excerpt from Yukichi FUKUZAWA's writings on white supremacy from his book "An Overview of the World in the Palm of Your Hand (掌中万国一覽, 1869)" is as follows. Mr. Yukichi FUKUZAWA and his ideology, which many citizens consider "Terrible (*Hidoi*)" in this 21st century, continue to be revered by private Keio University affiliates. ### Caucasoid Race

This race has fair skin, fine and long hair, a large cranium, and a high forehead. Their facial and skeletal structures are considered beautiful. They possess an intellect that is capable of reaching the heights of civilization. This is considered the most advanced race. People living in Europe, Western Asia, Northern Africa, and America who are of this race have these characteristics.

### The Mongoloid Race

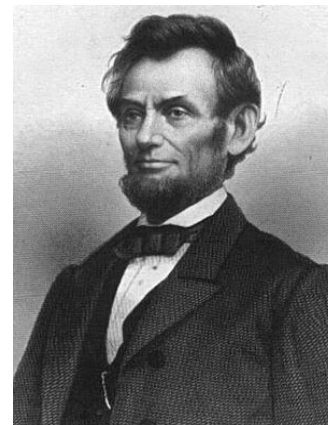

Their skin color is yellow, resembling the hue of oil. Their hair is long, black, straight, and tough. Their heads are slightly square-shaped, with a low forehead and flat, wide cheekbones. They have short noses and narrow eyes, the outer corners of which slant upwards. Although these people endure hardships well and strive diligently, their talents are limited, and progress in matters is extremely slow. The inhabitants of China, "Finland (a region in the northwest under Russian rule)," "Lapland" (north of Finland), and similar areas belong to this category.

### Negroid Race

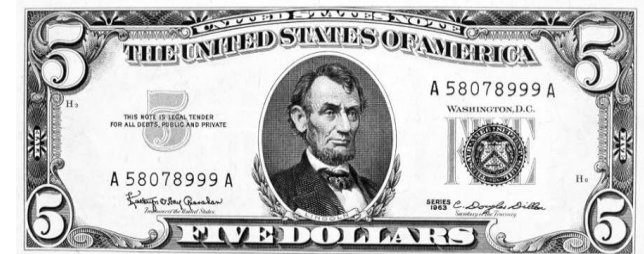

Their skin color is black with coiled, woolly hair resembling bunched sheep's wool. Their head is long and narrow, with high cheekbones and protruding jawbones, a low forehead, flat nose, large and protruding eyes, and large mouths with thick lips. They are physically strong and active but are considered lazy and unaware of the taste of civilization and progress. The inhabitants of the southern Sahara Desert in Africa, as well as those who were sold into black slavery and transported to America, belong to this race.

1835 -1901

Abraham Lincoln  
1809 - 1865

The "White Supremacy" described by Yukichi FUKUZAWA in his book was a view and way of thinking in line with the era in which he lived, and not an innovative way of thinking like Lincoln's.

以下は、福沢諭吉の著書『掌中万国一覽』（1869年）から白人至上主義に関する文章の抜粋です。福沢諭吉さんと彼の思想は、21世紀の今、多くの市民から「ひどい」と思われているにも関わらず、私立慶應義塾大学関係者の間では敬愛され続けています。
