“The Ministry of Education of the Russian Federation will deal with an issue about the irregularities (backdoor) in entrance examination at the universities except Moscow University in Russia which is written in the Japanese most famous sightseeing guidebook.”

Russian Ambassador to Japan: His Excellency Mr. Mikhail Galuzin

Dear Executive Assistant General Manager,

I have sent a letter about our study to four or five-star hotels in Nagoya, Kyoto, Osaka and Kobe in Japan several times. I am the Doctor and Chairperson of Sports. It is my pleasure to introduce our academic homepage “**chairperson.jp**” which is visited from all over the world including China (??). For your information, I have informed about the “**Chairperson 20th Anniversary Treatise**” which is an unconventional style (not a full paper style) to the professors of the University of Tokyo in 2012, Harvard University in 2013, Oxford University in 2014 and Paris University in 2015 for the “**Doping-Backdoor Theory**,” the general managers or assistant general managers of hundreds of four or five-star hotels around the world for the “**Chairperson Cocktail**” and the regular members of the Vienna Philharmonic Orchestra for “**My Way**” in (2010 and) 2016. “There are one and only theory and cocktail for universities and hotels in the 21st century.”

In Japan, Waseda University, the sole first-class private university, does not use the entrance-examination broker and 70 ~ 80% of the undergraduate students have a brain. Dr. Kaoru Kamata, (former) President of Waseda University and his henchmen spoke ill of me at Waseda University, “We (Waseda) can’t accept Dr. Shida’s way of conducting his research. He promotes his research on the floor, not on the stage ...” behind my back on July 10, 2006. From a bitter (not sweet) view point, three-fourth of undergraduate students of Waseda University are strong and one-fourth of them are weak, like Keio University which is the third-class private university to use the entrance-examination broker. “Quarter Weak (*San-kyou, Ichi-jaku*).” The University of Tokyo is the best one among about ten first-class public universities which does not use the entrance-examination broker and 100% of the undergraduate students have a brain. Two professors of the University of Tokyo gave their historical and traditional ‘Academic Harassment’ to me at the University of Tokyo. They dropped their heads abruptly towards me on March 14 and May 22, 2012. For your reference, Fukushima University and my old school, Mie University are near first-class public universities which do not use the entrance-examination broker and 90% of the undergraduate students have a brain.

Assistant General Manager, it would be grateful if your hotel is interested in my research. And I am content that your hotel just gets to know our cocktail “**Chairperson.**” No response will be needed. These serious situations for our study in the academic field in Japan had been reported to the Board of Directors of the Japan Society for Medical Education on May 30, 2015. Please feel relieved, but a little.

Sincerely,

Yukihisa SHIDA (M.D., Ph.D., Mie University, Japan)

I, physician, had also worked as a Mie University, M.D., Ph.D. in Osaka and sometimes Japan in recent years. An academic paper “Paper on January 29, 2019 (Norway, Sweden, Scholars and Scientists)” was put on the academic homepage “**chairperson.jp**” this month Chief Cabinet Secretary and one of the Diet members close to the Prime Minister Shinzo Abe, performs “dropped their heads abruptly” of the professors of the University of Tokyo.” He maybe a kind of person who distributes blackmail letters after receiving them. And there are not a few persons of the same kind in the Tokyo metropolitan area.
