“Star of Private Hosei University (Tokyo)”

A politician who graduated from competitive, mid-ranking, mediocre private university in Japan.
“Achieved to pass the paper examination of private Hosei University’s Department of Law, Day Division and this means he is brilliant” ??
Is he confident that he is “better than mediocrities of private universities such as private Nihon University and private Waseda University” or “above average (brilliant)” ??

The fact is “we can almost confirm he is modestly brilliant” ??

Is he said “more brilliant than former Prime Minister Shinzo Abe (Bachelor of Law, private Seikei University),” or “His deviation value is higher than deviation value of 50, a minimum passing score for competitive mid-ranking national universities” ??

Then he is damaged by the harmful rumors by the slander slandering,
“He is ‘dumb as a rock,’ ‘low energy’ and ‘lower than deviation value of 50’” is our misunderstanding ??

In order for a student to enter a private medical university and become a doctor, he/she needs to use a broker between a university and a student, such as a secretary of a Diet member, take follow-up lessons in a parking lot of Gusto and listen to political discourse, the spirit, and economic theory for backdoor admission. It costs more than 60 million yen to pay medical educational expenses and donations.

(Yasuhiro YAMASHITA, Chairperson of Japan Olympic Committee is Vice President of Tokai University «Tokyo», which was ranked the 17th among Japanese private universities in the World University Rankings 2020 and the university is famous as one of expensive schools in the Tokyo metropolitan area. The university is open to mediocre boys and girls and has many doctors and medical students who can afford to spend a great deal of money, as you imaged. Backdoor, money-powered universities have a history and tradition that they take money from unintelligent medical students and doctors to balance with them. There are some cases that universities directly ask the value of real estate that entrance examination candidates' families own before the announcement of entrance examination results.)

Debate

Of scholars who were recommended by Science Council of Japan (SCJ, 210 members) that plays a role in proposing policies to the Japanese government, six of them who had criticized the ruling Liberal Democratic Party's policy were not appointed by Prime Minister Yoshinobu SUGA who personally intervened, which has stirred up major controversy in Japan. And public opinions are split into two clear-cut camps over the interpretation and view and judgement of the academic Minister Suga, who assumed power as of September 16, 2020, taking over the then Prime Minister Shinzo ABE. publishers (newspapers and weekly magazines), on Wikipedia's non-academic websites, universities and academic and commercial websites, and in comments by Prime Minister Suga in person, his academic background deleted, written and corrected repeatedly thus far. The point is whether Prime Minister Suga was smart enough for the Day Division, Department of Politics, Faculty of Law at private Hosei University (Tokyo) or he was a ability who failed to pass the exam for the Day Division and was only admitted to the **Evening Division**.

Science Council of Japan

日本国政府に対する政策提言等の役割を担う日本学術会議（会員 210 名）が推薦した学者のうち、過去政権与党自民党の政策に批判的な学術などの 6 名の学者を、菅義偉総理大臣が個別に介入され任命を見送ったことが日本国内で大問題になっています。そして 2020 年 9 月 16 日より安倍晋三総理に代わり新しく総理大臣に選ばれた菅総理の学歴についての解釈、考え方、判断が日本国内で真二つに分かれ、新聞社（新聞及び週刊誌）、Wikipedia の非学術系 Homepage、大学及び予備校の学術兼商業 Base の Homepage、そして菅総理ご本人の Comment において、菅総理の学歴について Wikipedia を含め加筆と削除、記述と修正の応酬になっています。Point は、菅総理が私立法政大学法学部政治学科（東京都）の第一部（昼間）に合格するだけの頭があった秀才でみえたのか、それとも第一部（昼間）には入るだけの頭がなかった**第二部（夜間）**の凡才でみえたのか、です。

At national Fukushima University in Fukushima Prefecture where I passed the entrance exam for the Educational Department in 1984, only those who were admitted to the Economics Department of the Day Division are called “above average (brilliant)” and those admitted to the same department of the **Evening Division** are not called brilliant unfortunately. Also, in Ishikawa Prefecture, those who gained admission to national Kanazawa University (those who passed academic examinations) are called bright students in 80% but those who won admission to private Kanazawa Institute of Technology (KIT) and private Kanazawa Medical University are mediocre persons. The biggest difference between private Kanazawa Institute of Technology and private Kanazawa Medical University is the presence of entrance examination brokers and expensive tuitions.

金沢工業大学

Kanazawa Institute of Technology

金沢医科大学

Kanazawa Medical University

私が 1984 年、教育学部に合格しました実績のある福島県の国立福島大学でも、頭のある秀才、平均以上と言われますのは第一部の経済学部のみで、**第二部（夜間）**経済学部では残念ながら秀才とは言われません。石川県でも、国立金沢大学（学科試験入学試験合格者）は 8 割の学部生が秀才と言われますが、私立金沢工業大学、私立金沢医大ではほぼ凡才で、金沢工業大学と金沢医大の両私立大学の最も大きな違いは入試 Broker と学費です。

Whereas private Kanazawa Institute of Technology’s and Dept. of Engineering and private Waseda University (Tokyo)’s tuition is a little more than six million yen for four years, those of private Kanazawa Medical University is as much as sixty million yen for six years, ten times as much as KIT’s, including fees paid through an entrance exam broker. This is the same as the backdoor admission scandal that came to the surface in 2018, which two people who graduated from private Waseda University and the President of private Tokyo Medical University conducted. “Though I (who graduated from a private medical university in Tokyo) used an entrance exam broker from a private Waseda University academic clique, I did not buy my way into school. I paid as much as 60 million yen as a tuition but I am one of the brilliant students” – I (Dr.Shida) have never heard someone say this even in Tokyo. When you buy your way into the two private universities that place the 11th in the global university rankings 2021, private Teikyo University (Tokyo), which is notorious as the worst money-powered corruption admission university in this century, and the Medical Department of private Fujita Health University in Aichi Prefecture, whose tuition is the highest in the world and is expected to be the largest university hospital (1,435 beds) in Japan, you will need to pay 60 million yen to win admission to private Teikyo University and the Guinness-level 70 million yen to enter private Fujita Health University and the highest tuition will be as much as 100 million yen or more. Nobody in Okayama prefecture has ever heard that a boy from Okayama prefecture who paid 70 million yen to enter private Fujita Health University through the backdoor is brilliant, the same level as a nurse and a taxi driver... who is a graduate of national Okayama University (passed the entrance academic examination and has deviation value of about 50).

I haven't confirmed yet but the boy could be a company president and representative with a medical degree because he didn't pass the national examination for medical practitioners despite payment of 70 million yen to Medical School and Graduate School of private Fujita Health University.

私立金沢医大医学部医学科は、私立早稲田大学出身者 2 名と私立東京医大理事長が主導した 2018 年発覚の東京医大裏口金権不正入試事件と同じく、私立金沢工業大学工学部と早稲田大学工学部（東京都）4 年間の学費が 600 万円強に対して、入試 Broker を使い 6 年間で 10 倍、6 千万円もの学費です。「私（私立医大出身者）は、早稲田大学学閥などの入試 Broker を使いましたが裏口入試ではありません。6 千万円もの学費を出しましたが『秀才』です」との話は、東京でも聞いたことがなく、世界大学ランキング 2021 で国内の大学 11 位となられた 2 つの私立大学、21 世紀裏口金権大学として有名な私立帝京大学（東京都）と、世界一高額な学費で日本最大の大学病院（1,435 床）との呼び声高い私立藤田医大（2018 年に藤田保健衛生大学より改称、愛知県）の医学部医学科裏口入試価格が帝京大学で 6 千万円、Guinness Book Class の藤田医大に至っては 7 千万円程、共に 1 番の高額者は 1 億円以上にもなります。また「昔 NHK、新聞にも出られた藤田医大の岡山ご出身裏口金権 7 千万 Boy は、（偏差値 50 程の）国立岡山大学出身（学部入試学科試験合格）の看護師や Taxi Driver…に匹敵する秀才です」との話は、地元岡山県でも聞かれない様です。7 千万円の学費を積まれ、藤田医大医学部及び大学院に進学されたものの医師国家試験不合格。現在は藤田医大医学士の会社代表取締役として岡山で結果を出してみえるのかもしれませんが、未確認です。

Next year in 2021, “THE Asia Universities Summit 2021” will be held at private Fujita Health University, where President and professors, graduates, students keep a tight lid on the payment of 70 million yen and entrance examination brokers but I (M.D., Ph.D. of national Mie University) have no plan to attend it. In fact, my study on medical education has been

rejected by Japan Society for Medical Education since 2016, like the Saitama Medical Association rejected to carry my study on its magazine in the past. Therefore, I will not attend THE Asia Universities Summit 2021 that will be held with great splendor at the money-powered university in Aichi prefecture nor academic conferences which are held every year throughout Japan by the Japanese Society for Medical Education. I have been harassed by “Chickens” still now. Please refer to Chairperson 20th Anniversary Treatise

For your information, private Fujita Health University asks patients and their families for donations widely in the name of President of private Fujita Health University and Head of Center for Research on COVID-19 of Fujita Health University on its website as part of efforts to take countermeasures against the novel coronavirus infection (COVID-19) without disclosing its medical education expenses amounting to as much as 70 million yen. A family of a student who paid 70 million yen to win admission to private Fujita Health University and give priority on economy remains affluent amid the COVID-19 pandemic and apparently drives a luxury car, visits upscale restaurants and hotels to enjoy luxury time among family members and friends. And patients and their family who donate what little money they have to “poor people at Fujita Health University” do not know about it, as is the case with patients at private Aichi Medical University (Aichi Prefecture) and their families.

また藤田医大は Homepage 上、「新型コロナウイルス感染症対策募金のお願い」と題して藤田医大への寄附を患者さん、患者さんの家族も含め、やはり自身の7千万円の医学教育費を Homepage 上も公表されず藤田医大理事長及び藤田医大新型コロナ研究センター・センター長名で広く募集されていますが、経済を優先してみえる藤田医大の7千万円 Boy、7千万円 Girl の家庭は新型コロナウイルス流行後の今も裕福で余裕を持ってみえるため、ご家族。ご友人などと共に日常高級車に乗り、高級 Restaurant、高級 Hotel で贅沢な時間を過ごしてみえるご様子です。そして「気の毒な藤田医大の皆さんへ」と、なけなしのお金も含めご寄附いただく藤田医大の患者さん、患者さんの家族は、私立愛知医大の患者さん、患者さんの家族と同じくその事実を余りご存じありません。

President of private Fujita Health University sets forth the philosophy “Have infinite compassion for the weak and practice medicine without becoming arrogant even for a moment” and says that the university hospital that continuously puts the philosophy into practice gained the super excellent rating from Joint Commission International in August 2018 as it achieved 99.8% of the evaluation items,” stressing that its approach is legal but from a perspective of a doctor of medical science who graduated from national university like us, the private Fujita group consists of a 70-million-yen medical team (mainly consists of 70-million-yen boys and girls) for which we don’t feel admiration, private university instructors, private university hospitals, doctors and healthcare staffs, and its entrance examinations are backdoor, money-powered entrance examinations led by private Waseda University or private Keio University and others as a broker. Though a Japanese major news paper doesn’t report about the leading and smart expert, but listens to a private university president’s poor theory on education for raising 70 million yen to get into a medical college through the backdoor at the parking lot of the Gusto restaurant, etc. and praise by saying “we learn from the belief of shrewd managers” in the newspapers like JCI gave excellent rating to the university, they don’t listen to the views of the brilliant specialist and M.D. and Ph.D. who graduated from national universities. Unfortunately, journalists who are graduates of private mediocre universities like private Waseda University and don’t have a medical license, a national certificate cannot distinguish doctors or M.D. (*Sensei*, Dr.) from nurses (*San*, Mr./Ms.), or brilliant persons from mediocrities in their amateur articles. If you and academic medical societies in Japan listen to what brilliant students of excellent national universities are saying, I think you can feel the top of Mt. Fuji unlike TV casters who graduated from Japanese private mediocre universities and talk blue jokes as secret ingredients. Japan’s leading newspaper company wrote an article that was like a “custard cream bread with no cream” in which it didn’t intentionally disclose medical expenses that were so huge that they could be listed in The Guinness Book of Records. Consequently, the company became a yes-man for Fujita Health University, a third-rate, backdoor, money-powered university that asked its patients and their families who had no money for money. Please refer to the academic paper, Paper on October 17, 2015 (Paris University) on the academic homepage, chairperson.jp.

A family of private Teikyo University's (Tokyo) president is active serving as a professional broker for admissions. The university is famous as a money-powered backdoor university where a scandal they intermediated a backdoor admission for 100 million yen (920,000 US\$) came to the surface in the 21st century. Chairperson and President Yoshihito OKINAGA took up the president post in April 2002. Though he is as mediocre as the doctor who entered the university through the backdoor for 100 million yen, private Teikyo University became the 11th in the rankings of the world's universities in 2020 with private Fujita Health University. The private Teikyo University group is two-faced and said that "the amount the Okinaga family and private Teikyo University received did not go beyond the scope of social courtesy and it is not a big problem in education" or "we comply with the law and it is not a backdoor admission." As the major Japanese media that consists of the academic clique from mediocre private universities reports it as it is, the power of its words is weak and they have two aspects of "an entrance-examination broker and a specialist in backdoor entrance examinations," "a mediocre president and mediocre university," "greenhorns and greenhorn university," and "entrance-examination broker family and money-powered private university".)

"This is a Teikyo's lizard."

私立帝京大学は、大学理事長一族が Pro の入試 Broker として活発に動かれ、21 世紀 1 億円もの裏口入試仲介が表面化した裏口金権大学として有名です。沖永佳史 現理事長兼学長はその直後の 2002 年 4 月に大学理事長に就任され、その 1 億円裏口金権医師と同じく帝京大学の凡才でみえますが、帝京大学は 2020 年の世界大学大学ランキングで私立藤田医大の仲間と共に日本の大学の中で栄える 11 位となりました。しかし「沖永 Family と帝京大学が受け取った現金の額は、社会的儀礼の範囲を超えておらず、教育上ゆゆしき問題ではない」「法令順守しており、裏口入試ではない」(帝京大学 Group) との二枚舌と拝見されまして、日本の凡才私立大学学園の大新聞がその通りに報道される言葉の力は弱く、「入試 Broker と裏口入試の専門家」「凡才理事長と凡才大学」「お坊ちゃまとお坊ちゃま大学」「入試 Broker (Family) と裏口金権私立大学」の二刀流でいらっしやいます。

Meanwhile, private Fujita Health University was accredited as an Academic Medical Center Hospital by Joint Commission International (JCI), one of the biggest hospitals in Japan with 1,435 beds. **In the afternoon** on August 4, 2020, (former) professor of Fujita Health University, Dr. Akifumi MATSUYAMA (April 2018 – July 2020), who had been supported by the money-powered backdoor private university that collects 70 million yen medical education expenses and purchased and owns many medical books) released a study and theory on povidone-iodine gargle mouthwash for COVID-19 with Osaka Governor Hirofumi YOSHIMURA for the first time in the world. He caused such a great national response that gargle mouthwash disappeared from drug shops. However, unfortunately, Japan Medical Association was concerned about its effectiveness saying that they have little scientific basis. As a result, WHO also didn't recommend the mouthwash as a medication for COVID-19, as is the case with Brazilian President Jair BOLONARO who won the 2020 Ig Nobel Prize for Medical Education with former US President Donald Trump at Harvard University. For your reference, I, Dr. Shida, have not received a salary from private Fujita Health University or private Teikyo University like a full-time doctor. I neither own enough medical books nor become a Board Certified Member of the Japanese Society of Internal Medicine nor Fellow of the Japanese Society of Internal Medicine. When I was Team Doctor for a Japan table tennis team, I introduced myself as Team Doctor for Japan Table Tennis Association. Mie University, Faculty of Medicine, School of Medication Alumni Association severely told me not to talk about Japan Table Association or Team Doctor of the association that did not pay my salary at academic conferences and seminars. National universities including Osaka University should stick to the rule. And the Osaka prefectural government conducts backdoor recruitment examinations for public employees. Please refer to an academic paper, "Paper on April 6, 2012 (U.S.A.)" on our homepage "chairperson.jp." Former governor of Osaka, Mr. Toru HASHIMOTO, is a famous lawyer, but he gave a lenient argument about the backdoor recruitment examination he was involved in.

一方私立藤田医大は、JCI アカデミック・メディカルセンター病院 (Academic Medical Center Hospital) プログラムの認証を取得した日本最大の大学病院 (1,435 床) を有し、2020 年 8 月 4 日午後、松山晃文 (元) 藤田医大教授 (2018 年 4 月~202 年 7 月藤田医大教授就任、7 千万円もの医学教育費を集める裏口入試金権底辺私立大学 医師でみえ、多くの医学書を購入、所有してみえます) が、大阪府 吉村洋文知事と共に新型コロナウイルス感染症に対するポビドンヨードうがい薬使用についての研究成果、理論を世界で初めて発表されました。日本全国から注目され、日本中の薬局からポビドンヨードうがい薬が消える程の大反響を呼びましたが、残念ながら「科学的根拠が不足している」との理由で日本医師会は否定的な見解を示し、2020 年 Ig Nobel Prize 医学教育学賞を America の Donald Trump 大統領と共に Harvard 大学で受賞されたブラジルの Jair Bolsonaro 大統領と同様、WHO からも医学的な推奨は得られませんでした。

ちなみに私 (Dr. 志田) は、藤田医大や帝京大学から常勤として過去給料をもらっておらず、現在も十分な医学書、内科認定医、内科専門医を持っていません。昔「全日本卓球 Team・Team Doctor」を拝命していました時に、「日本卓球協会」「全日本卓球 Team・Team Doctor」と自己紹介してました私に当時、「学術の場では、常勤の医師として給料をもらっているところの話をする様に（常勤として給料をもらっていない「日本卓球協会」「全日本卓球 Team・Team Doctor」の話は学会、研究会等学術の場ではない様に）」との Rule を厳しく伝えたのは三重大学三医会で、国立大学は大阪大学を含めぶれずに守っていただかなくてはなりません。その他、大阪府も公務員採用試験の裏口採用試験を実施されてまして、学術 Homepage「chairperson」内 Academic Papers「Paper on April 6, 2012 (U.S.A.)」をご参照下さい。(元) 橋本徹 大阪府知事は有名な弁護士でもみえますが、自身の裏口公務員試験に関しましては甘い反論をしてみえます。

A part-time doctor, a graduate of a private university in Tokyo, has worked at a hospital I work for in the Tokyo Metropolitan area since this summer in 2020, boasts that he can review “electrocardiograms” and read “Chinese characters” now. This doctor wrote papers and is confident about “having entered the faculty of medicine (not school of nursing, the faculty of medicine, the faculty of pharmaceutical sciences)” or “achieving an average score” and it was conspicuous that he made a phone call to someone (outside the hospital, unidentified) on the mobile phone time and time again and kept talking on the hallway in front of an on-call room of the ward that he took charge of while on duty instead of calling a family of a patient whose blood pressure dropped to 60 (critical condition) from the nurse station on the afternoon. He is a half-man who doesn’t have real ability and lacks a sense of tension. I indirectly warned him, saying, “Though it is not a misdiagnosis, whether it is benign or malignant tumor (cancer), you should protect a patient by not overlooking vital signs.” Though full-time senior doctors who are graduates of brilliant national universities keep medical records for outpatients and inpatients in black letters, the part-time junior doctor who is a graduate of a mediocre private university and started working less than six months ago (he doesn’t know about the hospital he is working for very well) writes medical records in very different blue letters. As a result, the quality of medical care at the hospital has slightly declined. It is believed that this is because that medical education at mediocre private universities in Tokyo is poor. He likes a blue joke, “I am first boy,” and as same as other alumni of mediocrity private universities, premature medical care may change the lives of patients and their families, which is, of course, discourteous to other doctors who graduated from national brilliant universities.

東京首都圏の私の勤務病院にも 2020 年夏に新しく東京の私立大学から定期非常勤医師がみえまして、「心電図」「漢字」が今は大丈夫で、論文を書かれ「(医学部看護学科、薬学部ではなく) 医学部医学科に入った」「平均点ある」のが自信の先生ですが、非常勤勤務日の担当管理病棟 Nurse Station からその日の午後血圧 60 (危篤) になられた患者さんの家族へ電話を掛けられる代わりに、非常勤内科勤務中病院の医師当直室前の廊下から同日何度も携帯電話 (病院外宛、相手先不明) で非常勤勤務中に話し込まれる姿が目立っていらっしやいました。誤診ではみえませんが、実力、緊張感のおありにならない半人前。良性疾患であっても悪性疾患 (がん) であっても Vital 等見落とさない様に患者さんを見守っていかなくてははいけません、と間接的に注意させていただいています。何年も前から常勤勤務をしています年上の秀才国立大学、複数の医師が、黒色の文字で病院の外来、入院患者についての医師診療録を記入しているにも関わらず、新しく勤務を始めてから半年にも満たない (まだ勤務先の病院を分かってみえない最初) 凡才私立大学の年下の非常勤医師が、目立つガラッと変わった青色の文字で医師共通の診療録を記載してみえ、結果的に病院の医療 Level が若干落ちてしまっていますのも、東京の凡才私立大学での医学教育不足と考えられます。他の凡才私立大学の卒業生と同じく「初めて Boy、1 番が決まった」自慢もお好きですが、時期尚早の医療により、患者さん、患者さんの家族の人生がそれぞれ大変変わってしまわれることもありまして、もちろん失礼に当たり閉口されます。

(Please refrain from committing sexual harassment by going up to another person's Japanese house with your shoes on and damaging the reputation of another man's wife or lover implicitly. You should confirm that your wife or lover was an innocent woman when you taught her at night. Then I think it is best for you to be proud of your wife or lover at your home, and keep your memories of women other than your wife or lover to yourself to avoid sexual harassment. For example, even if a graduate of Boston University talks blue jokes that I am a first boy/girl of Harvard University graduates like graduates of a private mediocre university in Japan, it does not mean

that the evaluation and confidence will change from Boston University to Harvard University or MIT. It is meaningless. Of course, mediocre

President of the hospital I work for is also a graduate of a private university in Tokyo and there are half-fledged doctors other than the doctor in this case study. 勤務先病院の病院長も東京の私立大学ご出身でみえ、半人前程の Doctor は本 Case Study の Doctor 以外にも拝見してまして、学術 Homepage 「chairperson.jp」内学術論文「Paper on April 1, 2017 (Mie University in Japan)」「Paper on January 28, 2017 (U.S.A.)」「Paper on June 8, 2019 (Japan)」「Paper on March 7, 2021 (Tsu Tax Office, Japan)」等をご参照下さい。Paper も書かれず医師当直室に漫画文庫を作られる整形外科医、執刀医が患者の家族の求めに応じず、手術後一度も患者さんのお顔を診に行かれない外科医では、「Mr.」と呼ばれて一人前の外科医と言われる英国でも最後の外科医、半人前と思われま。

In reality, medicine filled with a sense of tension is practiced at a national university, which is on a different level compared to the private counterpart. We hear few blue jokes on “nurses” from doctors and nurses and have different levels of intellect from private universities. Our brains are different from those of graduates of private universities. If he practices such low-level practice, he would be virtually fired for another matter, because a doctor who does not

belong to the *Sanikai* (an academic clique of Faculty of Medicine, national Mie University) will be a burden for national Mie University. It happens every day that mediocre students and graduates, boys and girls including Sho SAKURAI, a mediocre entertainer and graduate of Faculty of Economics, private Keio University (Tokyo) often appear on TV and in weekly magazines pushed strongly as brilliant chairpersons or leaders at the business world. I have found Taro KONO, a mediocre politician, Minister for Administrative Reform and Regulatory Reform, who dropped out of Faculty of Economics, private Keio

University, at the Golden Lion Club, the Imperial Hotel Tokyo. When he argued that Japan would halt planned deployments of Aegis Ashore to Akita and Yamaguchi prefectures when he was Defense Minister, bureaucrats in Kasumigaseki in Tokyo who are graduates of private Keio University got frisky like elementary school children, saying, “Taro-chan is noisy at Ministry of Defense.” He is popular among Japanese people in spite of the fact that he is a mediocre politician from the “*Ahokusai* (foolish) ” *Keio clique* like elementary school children in the way that the mass media that is comprised of private Waseda University’s academic clique backs up and reports as if “*the average stupid politician*” were more brilliant than the mediocrities of private Nihon University or 20~30% of private Keio University students.

(The media says as if mediocre universities and mediocrities were brilliant and elites. For example, a major newspapers company writes a feature article in which they lump national University of Tokyo and national Kyoto University where brilliant students are dominant, and private Keio University and private Waseda University where mediocrities are dominant and account for 20 – 30% as elite universities controlled by brilliant elites with deviation value of more than 50 in its paper or weekly magazine. We often hear the names of private Keio University and private Waseda University where mediocrities are dominant and account for 20 – 30%, but hardly hear the names of brilliant, national Fukushima University, national Mie University and national Saitama University where brilliant students are dominant, though 20% of students are mediocre. The media does not check how many times the names of mediocre private universities and brilliant national universities like national Fukushima University, national Saitama University and Mie University appeared in the media or review to get accurate figures. In terms of brains, biased coverage for private Keio University and Waseda University is found in newspapers and weekly magazines. It also writes about Minister Taro KONO as if he were an brilliant and elite person whose deviation value was more than 50, an elite politician and smarter than Minister Hiroshi KAJIYAMA, Governor of Hokkaido, Naomichi SUZUKI.) On the other hand, since he could damage national interests as a minister who represents Japan, I have given Keio Alumni Association, Keiko *Mitakai*, a few words of warning indirectly twice at the Imperial Hotel Tokyo in the past. Please refer to an academic paper, “Paper on January 23 or 24, 2015 (Oxford University),” “Paper on November 20, 2016 (Philippines)” and “Paper on October 15, 2017 (Russia, Switzerland, China)” on the academic homepage, “chairperson.jp.”

実際国立大学では緊張感のある医療が行われ、私立大学とは段違い。国立大学では医師、看護師などから聞かれる「看護婦」の下ネタも少なく、私立大学とは頭が変わり、この程度の臨床では、国立三重大学では三医会（三重大学医学科学関）以外の医師はお荷物となり、別件で事実上の厳しい解雇となります。凡才学生を頻回に TV、週刊誌に出され、さらに凡才の芸能人、櫻井翔さん（私立慶應大学経済学部卒業）などの凡才卒業生、凡才 Boy、凡才 Girl を、Business 界で司会者、Leader へ秀才として「使う」と強力で押し売りされることも日常茶飯事で、帝国 Hotel 東京 Golden Lion Club でお顔を拝見する凡才政治家、河野太郎内閣府特命担当大臣（慶應大学経済学部中退）が防衛大臣時代の 2020 年夏、秋田県、山口県のイーグリス・アショア配備問題で撤回を主張してみえた際にも「太郎ちゃんが防衛省で暴れまくっちゃって」と慶應大学卒業の官僚などが、東京霞が関官庁街で小学生の様にはしゃいでみえました。小学生の様なあほくさい慶應学関の凡才政治家でみえますが、私立早稲田大学学関の Mass Media が肩を持ち、「普通のバカ」があたかも日本大学や慶應大学の下凡才より頭がある様な報道の仕方で（凡才大学、凡才について、秀才、Elite の様な言い方をしてみえることです。例えば、秀才が支配的な国立東京大学及び国立京都大学と、凡才が 2~3 割を占め、凡才が支配的な私立慶應大学及び私立早稲田大学を偏差値 50 以上の秀才、Elite が支配する秀才、Elite 大学として横並び、一緒にして、大新聞社が新聞、週刊誌で特集記事を組むなどです。凡才が 2~3 割を占め凡才が支配的な空気の私立凡才大学でみえる慶應大学、早稲田大学の名前を頻回に挙げる一方、凡才が 2 割を占めるも秀才が支配的な空気の秀才国立大学、福島大学、三重大学、埼玉大学等の名前はほとんど拝見しません。凡才私立大学と福島大学、埼玉大学、三重大学の様な秀才国立大学の大学名の登場回数をそれぞれ確認し、数字を出す査読もされてみえず、新聞、週刊誌で、頭という観点からは、全国的に慶應大学と早稲田大学に偏向された取材報道になってみえます。河野太郎大臣も、梶山弘志大臣、鈴木直道北海道知事より頭がある偏差値 50 以上の秀才、Elite 政治家でみえるかのごとくの言い方、書き方をされてます。)、日本国民にはそれで人気がおありになる一方、国を代表する政治家としては、凡才私立大学学関が秀才、Elite として持ち上げる凡才大臣では国益を損ないかねず、慶應大学三田会（慶應学関）の皆さんには帝国 Hotel 東京にて私から過去 2 回、こちらも国立中堅大学の医師、医学博士から間接的にご注意申し上げたことがあります。学術 Homepage「chairperson.jp」内 Academic Papers「Paper on January 23 or 24, 2015 (Oxford University)」「Paper on November 20, 2016 (Philippines)」、「Paper on October 15, 2017 (Russia, Switzerland, China)」をご参照ください。

For your reference, in an article dated September 4, 2020 by the Hochi Sports Shimbun (Sports Newspaper) under the umbrella of the Yomiuri Shimbun, which boasts the world's largest circulation of 7.7 million copies, it is reported that

When Mr. Suga heard the sound of “Hochi,” he broke into a smile. When he was asked about the time when he worked as a part-timer at the Hochi Shimbun while he was a student of the Department of Politics, the Faculty of Law of the Evening Division at private Hosei University in 1970, he raised the tone of his voice a little. It says that he said, “My upperclassman told me there was an extremely well-paying part-time job. The pay was by far better than any other part-time job. I got paid about as 1.5 times as much.”

After having passed the entrance examination for the Education Department of national Fukushima University in 1984 and graduated from the Graduate School of Medicine at national Mie University (Mie Prefecture) in 1992, I also worked to conduct medical checkups at the head office of the Hochi Shimbun in Tokyo on a part-time basis once in 2009. On the day of medical checkups, though the number of people who underwent medical checkups was small, the pay was the same as other part-time jobs so I won't raise the tone of my voice. If this article which remains uncorrected as of now is accurate, Prime Minister Suga is not a self-proclaimed and as private Hosei University claims "a motivated struggling student fresh from the country of Akita (Akita Prefecture, Japan)," or "a smart student," who passed the academic examination for the Day Division of private Hosei University, which is challenging, and worked his way through college after coming to Tokyo, but "a lazy student who is not motivated to study" who was only able to obtain admission to the **Evening Division** of the university, which was easy, though it is a famous private university and "a student of ordinary ability" like present Governor of Hokkaido. While attending the Faculty of Law at the university, he appeared to be more enthusiastic about karate club activities than academic activities.

ご参考までに、世界最大の発行部数(770万部)を誇る読売新聞社系列の Sports 新聞、報知新聞 2020 年 9 月 4 日付記事では、

「『ほうち』の響きを耳にして、菅氏は頬を緩ませた。法大**第二部**法学部政治学科在学時の 1970 年に報知新聞社でアルバイトをしていたことを問われると、少し声のトーンが上がった。『先輩から『ものすごくいいアルバイトがある』と…。他のアルバイトより全然給料が良かったです。1.5 倍くらいお金をもらえましたから」

との記述があり、私(志田医師)も過去 1 度、国立福島大学教育学部合格(1984 年)後及び国立三重大学大学院医学研究科卒業(1992 年)後、報知新聞本社(東京)で 2009 年に内科健康診断アルバイトをさせていただいたことがあります。健診当日、予定健診人数は少なかったものの、給料は他の非常勤勤務と同じでしたので、声のトーンは上がりません。この報知新聞社で現在も訂正されていない記事が間違いないとしますと、菅義偉総理は、ご本人並びに法政大学が主張される、秋田の田舎から上京後働きながら法政私立大学の難しい第一部入学学科試験を通った「勉強のやる気のあった苦学生」「秀才」ではなく、現北海道知事と同じく有名私立大学ではあるが簡単な法政大学法学部**第二部(夜間)**の入学試験しか通っていない「受験勉強のやる気がなかった楽学生」「凡才」ということになります。法政大学法学部在学中も、勉強よりむしろ空手部の活動に熱心でみえた様です。

Forgetting about the fact that Mr. Yoshihide SUGA and Mr. Taro KONO were “lazy students who were not motivated to work hard to pass an entrance examination for college” and “mediocre persons,” Taro KONO, Minister for Administrative Reform and Regulatory Reform in the Suga Administration, strongly ordered those bureaucrats working under him, who were brilliant students, to quit if they are not motivated to get their work done in accordance with his instructions. But I want Prime Minister Suga and Minister Taro KONO not to ignore and forget about the fact that Mr. Suga and Mr. Kono were not motivated students but to tell the truth. The head of the state assumes responsibility for ending this “brilliant vs. mediocre debate” as a public figure in order not to waste efforts and hard work by students who prepare for entrance examinations for college, dreaming about the day when they are called smart and brilliant. If he, a person of ordinary ability who was not motivated to work hard to pass an entrance examination, pretends to be a bright student who worked hard to pass a challenging academic examination to win admission to college and intrudes in a domain of the best and brightest students and university students and business people who show their educational and business backgrounds honestly, it would be annoying even though he is the prime minister of state. It should be the first consideration for Prime Minister Suga to settle the issue on the de facto academic fraud in an energetic way. There is no shortcut to be brilliant and we cannot make a reservation to be brilliant.

菅内閣の河野太郎 行政改革担当大臣は、自身と菅総理の「受験勉強のやる気がなかった楽学生」「凡才」であったことは棚に上げ、「私の指示した仕事について、やる気のない人は辞めてもらう」と部下である秀才の官僚に強く指示を出されていますが、菅総理と河野大臣はご自身達の勉強のやる気がなかったことについては棚に上げて忘れてしまわれるのではなく、正直に語ってほしいものです。一国の Top は、「頭がいい」、「秀才」と言われる日を夢見て日々受験勉強に励んでいる受験生と正直な学歴、経歴を提示しています大学生及び社会人の努力を無にしないためにも、この凡才×秀才論争について公人として終わらせる責任があります。苦勞する受験勉強をやる気がなかった凡才が、努力を重ね、難しい大学入試学科試験に合格した秀才のふりをされ、秀才の領域に土足で上がってみては、例え 1 国の総理といえども迷惑です。菅義偉自らの、事実上の「学歴詐称」「経歴詐称」「秀才詐称」を、気力（エネルギー）を持って改革なさるのが先決事項でしょう。秀才に近道はなく、予約も出来ません。

Having said so, however, if he reviews the newspaper article carried by the Yomiuri Shimbun-backed Hochi Shimbun and admits that it was a false report regarding the fact that “while attending the Evening Division of private Hosei University” and corrected it to “the Day Division of Hosei University” and the newspaper company publishes an article for correction, his words and deeds thus far, including “a motivated student who worked hard to obtain admission to college despite financial difficulties,” “About two media reported that I graduated from the Evening Division of private Hosei University but in fact, it was the Day Division (I attended the Faculty of Law in the Day Division of Hosei University and the Japanese media report that I attended the Faculty of Law in the Evening Division of private Hosei University was wrong),” and he continues to act as a statesman and engage in election campaigns or political activities down the road, there should be quiet no problem. As general newspapers including the Yomiuri Shimbun Company, the Asahi Shimbun Company, the Mainichi Shimbun Company, weekly magazines, TV news programs and talk shows of NHK and private TV stations deliver, Japanese citizens will be proud of Prime Minister Suga to the world as a self-made politician who is smarter than former Prime Minister Shinzo ABE, who is a mediocre politician and graduate of Department of Political Science, Faculty of Law, private Seikei University (Tokyo), and was not considered to be brilliant by the Prime Minister’s Office and the White House, and Taro KONO, former Minister of Foreign Affairs, who is also a mediocre politician and graduate of the School of Foreign Service, Georgetown University. President of private Hosei University is placing high expectations on Prime Minister Suga and many students preparing for university entrance examinations respect him as a brilliant politician.

しかしながら、読売新聞系列の報知新聞社がご自身の新聞記事を見直され、「法大第二部在学」の記述を誤報として認められた上、「法大第一部在学」の訂正記事を新聞社として出されれば、これまでの菅義偉総理の言動「受験勉強のやる気のあった、お金に苦労した苦学生」、「メディアで二つくらい、法政の夜間卒だと書いているのがありますが、昼です。（私は昼間の法政大学第一部法学部に在籍してました。夜間の法政大学第二部法学部在籍との報道をしてみえる Mass Media は間違いです。）」、「そして秀才政治家としての立ち振る舞い、選挙活動、政治活動で今後も全く問題ありません。読売新聞社、朝日新聞社、毎日新聞社などの一般新聞、週刊誌、NHK、民放などの News 番組、Wide Show で今も伝えられてます通り、総理官邸、White House にても秀才と言われない私立成蹊大学（第一部）法学部政治学科ご出身、凡才政治家 安倍晋三前総理大臣並びに米国 Georgetown 大学比較政治学専攻ご出身、同じく凡才政治家 河野太郎元外務大臣よりも頭がいい、昔働きながら厳しい受験勉強に打ち勝ったたたき上げで、日本国民が頭がおありになると世界に誇れる菅義偉総理大臣でみえることでしょう。法政大学学長も期待を寄せてみえまして、日本の多くの受験生からも尊敬されます。

If this is misunderstood as a malicious case in which Prime Minister Suga controls the mass media and tries to conceal the fact of his admission to the Faculty of Law of the **Evening Division** at the university and attendance at the division and that he is actually a mediocre politician, I assume that it should go against their grain. It is hoped that the Yomiuri Shimbun, its subsidiary Hochi Shimbun will fact-check promptly to find out whether he was admitted to the Law Faculty of the **Evening Division** at private Hosei University and attended the division or not and present the truth both at home and abroad.

菅義偉総理と母校の法政大学が、菅義偉総理の法政大学法学部政治学科**第二部（夜間）**入学及び**第二部（夜間）**在籍の事実と、実は凡才政治家でみえるとの真実を、Mass Mediaを抑えられひた隠しにしてみえる悪質な Case と誤解されましても不本意と思われまして、報知新聞が系列である読売新聞は、すみやかに菅義偉総理と自らの Fact Check を行い、法政大学法学部政治学科**第二部（夜間）**入学及び在籍の事実の有無を確認の上、国内外に事実と真実を示されることが望まれます。

Prime Minister Suga, in this case about your academic background, I heard that you (or your surroundings) had direct negotiations to hide the fact that he was admitted to the **Evening Division**, Faculty of Law of private Hosei University and graduated from the Day Division of the same to which you transferred while in school by placing enormous pressure on three editors-in-chief of leading newspapers, scaring them out of their wits, while private Hosei University issued a strict gag order so that its graduate Prime Minister's mediocrity may not be leaked to outsiders. Phew (sigh). So, Prime Minister Suga... This is a little bit malicious and this was maneuvered in an amateurish manner, which ended up hurting Prime Minister and the university's reputation... Sorry about this. (The money-powered backdoor admission scandal of the 21st century, in which an academic clique of private Waseda University pulled a few strings, became known throughout the world, which left a blot on the names of Masahiko USUI, «former» chairperson of private Tokyo Medical University, Ministry of Education, Culture, Sports, Science and Technology, Futoshi SANO, «former» director general of bureau of Education, Culture, Sports, Science and Technology, and private Waseda University «Tokyo»). **“He (Mr. Suga) is dump as a rock! Low energy!”**

「今回の Case、入学が法政大学**第二部**法学部、卒業が在学途中に変わられた法政大学第一部法学部との事実、凡才でみえるとの真実を隠す様合法的に直談判され、大新聞 3 人の編集長が震え上がる程の圧力で抑えられてまして。また法政大学も、卒業生である総理の凡才が、外に漏れないように箝口令が敷かれておるやに聞いております。はあー（溜息）。ですから菅先生。これちょっと悪質でございまして、下手に動かれて工作なさいましたため、かえって菅義偉先生と法政大学のお名前に…。御免下さいませ。」（21 世紀早稲田大学学閥が裏で工作された裏口金権入試事件は世界中に知れ渡り、私立東京医大と臼井正彦（前）理事長、文部科学省と佐野太容（元）局長、そして私立早稲田大学の名前に傷が付きまして。） **「とてつもないバカ。低エネルギー。」**

I wonder whether Prime Minister Suga is an unintelligent and untrustworthy mediocre man who pretends to be a brilliant person now, who worked part-time at Hochi Shimbun when he was young as a student who majored in politics in the **Evening Division**, Faculty of Law of private Hosei University? Or is he a more brilliant person who displays a higher academic performance, who was a part-time worker, a student of the Day Division of the Faculty of Law of private Hosei University like me (Dr. Shida), who submitted a resume, through a medical checkup center in Tokyo where I worked as a part-time doctor, that said that “I passed an entrance examination for the middle school teacher training course (Science) of national Fukushima University in March 1984. (I declined to enter.)” to the head office of Hochi Shimbun before working as a part-timer, than those who passed an entrance examination for the **Evening Division**? (In a US TV drama, “West World,” the most important point of the drama, where Host does not attack human Guest, is described in only one program sentence.) At present, in the Japanese mass media, Hochi Shimbun is intensely fighting a lone battle against the Japanese major newspaper companies in terms of conventional wisdom, and if the fact and reality is disclosed quickly, it could lead to a more transparent and stable Japanese society where the government and the media indicate their attitude that does not hide the prime minister’s academic background, experience or mediocrity. Just like private Waseda University that has 20 to 30% of mediocre students and graduates and takes a lead in money-powered backdoor admissions involving private universities in the 21st century, private Hosei University is a private university that is unable to say anything about its mediocre students and graduates that account for about 40%, implying that those of ordinary ability are predominant (Many of graduates of national universities are brilliant and rarely talk about blue jokes, but often have their own intelligence.)

果たして菅総理は、若き日に報知新聞で法政大学**第二部（夜間）**法学部政治学科学生としてアルバイトしてみえた、現在は秀才のふりをしてみえる信頼の置けない頭のなかった凡才でみえるのでしょうか。それとも当時法政大学第一部法学部政治学科のアルバイト学生で、「昭和 59 年 3 月（国立福島大学教育学部中学校教員養成課程 入学辞退）」と一行記載してあります履歴書を報知新聞本社でのアルバイト前に私が非常勤医師として籍を置いてました東京都内の健診センターへ提出済の私と同じく、**第二部（夜間）**学部入学学科試験合格者より学力が上の、頭のある秀才でみえるのでしょうか。（米国 Drama「West World」で、Host が人間の Guest を襲わない最も重大な設定も、わずか 1 行の Program 記載のみです。）現在の日本の Mass Media では、大新聞と社会通念上正反対の内容で激しく対峙してみえる報知新聞のほぼ孤軍奮闘状態でありまして、すみやかに事実と真実が開示されますと、学歴、経歴、凡才を隠さない健全な政府及び報道姿勢としまして、透明感そして安心感漂うより安定した日本社会へと向かえるかもしれません。20～30%の凡才学部生、凡才卒業生を抱え、21 世紀の裏口金権私立大学入試を先導してみえる早稲田大学と同様、法政大学も自らの約 40%を占める凡才学部生、凡才卒業生については何も言えない、凡才が支配的な空気の有名私立大学です。（国立大学は、秀才が支配的な空気の下ネタは少なく、しばしば頭の話をしませぬ。）

Japanese Diet Member Shinjiro KOIZUMI, former Prime Minister, Junichiro KOIZUMI’s second son, is also mediocre, but he is considered to be a possible candidate for future prime minister. In the US TV drama, “West World,” a **Host**, who is mediocre with 14 marks out of 20 became a brilliant **Host** with 20 marks. Likewise, if mediocre politicians become **boys who have a broker and 60 ~ 100 million yen** by using the broker arranged by the Okinaga family of private Teikyo University and paying money and taking follow-up lessons at the parking lot of a restaurant, Japanese family restaurant chain Gusto in the cold., like Diet member Masayoshi SHINTANI did, the chance of becoming poor brilliant doctors or poor politicians who changed their scores from 10, 12 or 14 to 20 is not close to zero. Even if they are not very smart with 10,12 or 14 marks, they could run a brothel in “West World,” or get a competitive job such as politician, lawyer, medical doctor, or TV newscaster in the real world of Japan. If Prime Minister Suga displays his capability that is good enough to be elected as the prime minister, unless he proves that he passed an entrance examination of the Day Division of a topnotch private university like private Hosei University or national university like national Fukushima University free of charge or shows scientific evidence to prove he has achieved that, Prime Minister would be labeled as a mediocre man like lawyers who graduated from private Aichi University (Aichi Prefecture), doctors who graduated from private Aichi Medical University, an anchormen who graduated from private Keio University (Tokyo), a MC of a TV wide show who was from a preparatory school, and Mr. Yusaku MAESAWA, a businessman who is a graduate of private Waseda University Senior High School with gross assets totaling more than 2 billion dollars, and unfortunately, it would not fade away. TV talent who is popular as MC in Japan, Mr. Toshiaki MEGUMI who’s hometown is Kagoshima Prefecture, increased 3 years’ worth of general knowledge at a university preparatory school in Kyushu instead of going to a university, but we hear that he had a difficult time becoming a mediocrity who has the same level as bachelors of private Aichi University, private Aichi Institute of Technology, private Aichi Medical University, and private Keio University. Even if he could then enter a national university or graduate from a national university through the Integrated Selection System and achieve excellent results, he will not be judged as brilliant. Same applies even if he could enter a graduate school of national university.

小泉純一郎元総理の次男、小泉進次郎国会議員も凡才でみえますが、日本では将来の総理大臣候補と目される程の政治家です。米国 TV Drama「West World」では、最初頭が 20 段階中 14 点の凡才 Host が、その後 20 点満点の頭脳明晰な秀才 Host へと Program 変更されました。凡才政治家の皆さんも裏口入学を選ばれ、新谷正義国会議員の様に帝京大学理事長一族（沖永 Family）などの入試 Broker を使い、Restaurant Gusto の寒い駐車場等そこで補習を受け入試 Broker が付いた 6 千万～1 億円 Boy になられば、10 点、12 点、14 点などから 20 点に伸びたお寒い秀才医師、お寒い秀才政治家に変わられる可能性は Zero ではなく、また 10 点、12 点、14 点など頭がやや弱くみえるとしましても、「West World」で売春宿経営者、現実の日本国では希望者が多く競争率の高い政治家、弁護士、医師、TV Newscaster も務まります。ただし総理大臣に選出される程の能力を発揮されたとしましても、福島大学などの国立大学または法政大学などの難関私立大学の（第一部）学部学科入学試験等をただで（無料で）1 度でも突破したという実績、科学的根拠がない限り、私立愛知大学（愛知県）ご出身の弁護士、私立愛知医大（愛知県）のご出身の医師、私立慶應大学ご出身の Newscaster、大学予備校ご出身の TV Wide Show 司会で有名な人気 Talent 恵俊彰さん、私立早稲田大学附属高校ご出身の実業家（総資産 20 億 US\$以上）前澤友作さんなどと同じく生涯「凡才」の二文字が重なり、残念ですが個々で消えることはありません。鹿児島市が故郷の有名 Talent の恵さんを改めて見直してみましても、大学の代わりに（？）九州の予備校で全予備校生のほぼ最後、3 年間そこまでの教養を学ばれてましたが、予備校では愛知大学、愛知工業大学、愛知医大、慶應大学の学士、博士並みの凡才になれるのも難しい成績でみえたご様子です。またこれから国立大学の学部で総合型選抜入学試験で入られて、大学で優秀な成績を取られたとしましても、それだけで秀才とは判断されません。国立大学大学院でも同じです。

Minoru AOI, NHK’s announcer, said the Japanese rugby team would win against South Africa in the news program on October 20, 2019 with confidence. However, it lost big 3-26 to South Africa in the evening of the same day. Among third-year students in the groups of A and B of private Tokai High School, the best high school in Aichi prefecture with its deviation value being 70, only students in the group A are said to be brilliant students who can pass the entrance examinations for national Aichi University of Education whose deviation value is around 50. Third-year students in the group B who occupy the majority of whole third-grade students are not called brilliant (smarter than those who failed the entrance examinations for national Aichi University of Education) if they don't pass the entrance examinations for national Aichi University of Education... When a mediocre person becomes a lawyer, certified public accountant, first-class architect, or doctor that need to study many hours to qualify, however, he/she can also get higher income in general after graduation of a private university. When I once visited a branch hospital of private Fujita Health University in Tsu City, Mie Prefecture at the request of a professor of the university, I was surprised to see many high-end foreign cars in the parking lot for the staff of the branch hospital. It is problematic to enter private Fujita Health University, private Aichi Medical University, or private Kanazawa Medical University to become a doctor by paying more than 60 million yen through the intermediary of graduates of private Waseda University, e.t.c. who serve as a broker. If your family is not rich to enter the department of medicine of a medical school you apply to for insurance, you should review and change your career path; going to the department of nursing to become a nurse or clinical laboratory technician, then going to the low-ranking, mediocre private university in Japan (from the view point of the "Brain"), the departments of law, economics, or technology of private Aichi University, private Aichi Institute of Technology, or private Kanazawa Institute of Technology to become a lawyer, certified accountant, or first-class architect, and if you study many hours and train to qualify, this should be the right path set by yourself. You will be able to read and understand heavy book of six major laws, financial documents, and architecture books as a specialist instead of books on nursing and clinical inspection documents. It is not uncommon that some medical staff including clerical workers, who have a longing for a doctor's high position who is called "*Sensei*, Dr. (not *San*, Mr./ Ms.)," with heavy responsibility and high income and have an inferiority complex toward money-powered backdoor universities and mediocre doctors who can afford to pay college tuition of 60 million yen, are brilliant graduates of competitive, highly-ranked national university, national Nagoya University (Aichi Prefecture) or national University of Tokyo. If they enter into the world of doctors, lawyers, certified public accountants, and first-class architects, their complex or view of implicitly looking down on doctors will disappear from the world of clerks, nurses, careworkers, and technicians, and will be ranked higher at leading restaurants, hotels, and members-only clubs from the point of views. Even a person who is a graduate of private mediocre university, lacks business manners, and gives a nasty feeling can be a banker and lawyer, and your world might broaden enough to become a commercial TV caster like Osamu SORIMACHI. Please refer to an academic paper, "Paper on November 5, 2018 (Hyakugo Bank, Japan)" on the academic homepage, "chairperson.jp." Meanwhile, mediocre medical students and doctors of private Fujita Health University, private Aichi Medical University, and private Kanazawa Medical University have such a strong complex that they cover up their brokers and 60 million yen school expenses that prove they are third-rated, backdoor, money-powered universities, and they often try to identify themselves with us from brilliant national universities including national Mie University and national Kanazawa University, which cause us trouble. Please refer to an academic paper, "Paper on May 30, 2015 (Japan Society for Medical Education)" on the academic homepage, "chairperson.jp."

Low-ranking private mediocre Universities in Aichi Prefecture in Japan in terms of cleverness

愛知県で1番の進学高校、偏差値70の私立東海高校でも、偏差値の平均50程の国立愛知教育大学の入学学科試験に合格する秀才と言われるのは高校3年の成績上位A群と成績下位B群の生徒のうち、成績上位A群の生徒のみです。高校3年の生徒のうち半分以上を占める成績下位B群の生徒は、実際に国立愛知教育大学などの入学学科試験を受け、合格しなければ秀才(国立愛知教育大学の入学学科試験の不合格者より頭がいい)とは言われません。しかし凡才の人でも私立大学に入って、資格試験のために長時間の勉強が必要な弁護士、公認会計士、一級建築士、医師に問題なくなれば、一般に収入が上がります。昔私立藤田保健衛生大学(現藤田医大)の教授の依頼で、私三重県津市の大学病院分院を見学に行った際には、医師所有の高級外車が何台も置かれる外車展示場のような藤田医大病院分院職員駐車場に驚きました。私立早稲田大学卒業生などがやってみえる入試Broker及び6千万円以上とそこまで高額な学費のため私立藤田医大や私立愛知医大、私立金沢医大の医学部医学科に入って医師になるには問題があり、医学部医学科がすべり止めにならない人は、医学部看護学科、保健衛生学部をすべり止めとして看護師、臨床検査技師になる選択を見直され、(頭という観点から)下位凡才私立大学の私立愛知大学や私立愛知工業大学、私立金沢工業大学の法学部、経済学部、工学部に進まれ、長時間の勉強、Trainingをし、凡才ながら弁護士、公認会計士、一級建築士になることを検討されるのも、ご自身に敷かれるRailのひとつです。看護書、臨床検査書の代わりに、重い六法全書、財務書、建築書を普段専門家として読み解けます。先生、Dr.と呼ばれる医師の高い地位、重い責任、高額な収入に対して憧れを持たれ、裏口金権大学及び6千万円の学費を払う凡才医師に対してComplexを抱いてみえる事務職員を含む医療Staffなどは、難関上位国立大学、名古屋大学や東京大学の秀才卒業生でも珍しくありません。医師はもちろん、弁護士、公認会計士、一級建築士の世界が開かれれば、普段事務職、看護師、介護士、検査技師の肩書に対する対応、そして医師を暗に「下」呼ばわりする様なComplex、考え方が消え、国内外の一流Restaurant、一流Hotel、会員制Clubでも格上の扱いとなります。凡才私立大学で学ばれ、残念ながらBusiness Mannerが身に付いてみえず不潔な印象になる程の人も、銀行員、弁護士でしたら一応勤まり、民放TV Caster反町理さんの様にTV出演の世界も広がります。学術Homepage「chairperson.jp」内Academic Paper「Paper on November 5, 2018 (Hyakugo Bank, Japan)」をご参照ください。その一方私立藤田医大や私立愛知医大、私立金沢医大などの凡才私立大学の凡才医学生、凡才医師の頭のComplexは非常に強く、三流裏口金権大学の証である入試Brokerと6千万円の学費を隠し、しばしば凡才私立大学と国立三重大学、国立金沢大学などの秀才国立大学、ご自分達凡才の医師と私達秀才の医師を重ね様としますため、迷惑していますところです。学術Homepage「chairperson.jp」内Academic Paper「Paper on May 30, 2015 (Japan Society for Medical Education)」をご参照ください。

Summary of Debate

Haruko OBOKATA, who is a graduate of middle-ranked, mediocre, private Waseda University, published a paper on STAP cells at RIKEN (Japan's largest comprehensive research institution) and shook the scientific world. Unfortunately, however, she is not regarded as a brilliant and elite person scientifically but mediocrity, same as Mieko NAKABAYASHI of private Waseda University, a famous professor and political scientist. Her educational background that she entered Dept. of Applied Chemistry, School of Advance Science and Technology, Waseda University through AO entrance examination (presently the “Special Entrance Examinations”), not through paper examinations, is disclosed on the Internet. After all, this young scientist who graduated from private Waseda University can’t clear two hurdles, to prove the existence of STAP cells and her own brain (brilliant) in her life. On the other hand, since the fact that Prime Minister Yoshihide SUGA passed the paper examination for the First Dept. (daytime) of private Hosei University is not disclosed, it is difficult to say that he is brilliant unless at least 10 people think that he is brilliant who could pass difficult mid-ranking national university like national Fukushima University, national Kagoshima University, or national Chiba University with deviation value of around 50. Though Prime Minister Suga is a karate martial artist with a black belt, if he cannot get 10 votes or gain enough support from Japanese nationals, he should behave himself as a mediocrity, not as a brilliant person. A large number of people lost their jobs even they are truly brilliant under the condition of the spread of COVID-19. I remember that an American

office worker tried to find a job, hanging a self-made board saying “a graduate of MIT” to introduce himself as a brilliant person on the road when the Lehman Shock took place in 2008. Since the Japan Karate Association says that Karate education that has been nurtured in the Japanese tradition refines your soul through extensive training on its website, Prime Minister Suga cannot be “Most unclean,” “Devil (not the Devil's Double)”, “God of false words”, “Ruler of deception”, or “Greenhorn.” However, with all things considered, suspicions about

his academic
fraud,

fraud, and pretending to be brilliant have not yet been cleared. That is not what a real sportsman is supposed to do, that is, suppressing Japanese major newspaper companies and his alma mater, private Hosei University, to hide the fact that he is a mediocrity and pretends to be brilliant.

Ms. Haruko OBOKATA from Chiba Prefecture is a graduate of the Faculty of Science and Engineering, private Waseda University, but she is not regarded as a brilliant and elite person who can pass entrance examinations for the faculties of education of mid-ranking national universities including national Chiba University (Chiba Prefecture). She is a mediocre graduate representing private Waseda University, “Waseda’s *Birigal* (a female college student who finished last).” Though she insisted many times that STAP cells existed and she was smart as a graduate of the Faculty of Science and Engineering, private Waseda University, as it had poor evidence, what she insisted is not accepted by academic cliques other than those of private Waseda University that is lenient to her. Private Waseda University was an only and leading excellent private university in Japan in the 20th century. However, it changed to a middle-ranked, mediocre private university in the 21st century as a result of the fact that while the percentage of new students who passed general written examinations reduced, the percentage of those admitted by recommendation and through admissions offices rose due to a fall in the number of entrance examination candidates because of the low birthrate in the 21st century. Now mediocrities who make no distinction between being smart and being mediocrity are dominant at private Waseda University. Some students do rude octopus dancing in front of people and say “*chatte*,” “*chatte*” like a child without a sense of tension. Waseda is a private university that is ranked between top universities and second-rate universities and proud of its stupid history and tradition. In addition, it’s not uncommon for them to pick their nose and clean their ears in front of people, which gives them a nasty feeling.

Debate のまとめ

難関中堅、凡才私立大学の早稲田大学ご出身で、理化学研究所から STAP 細胞を発表し、世界の科学界を震撼させた小保方晴子さんは、残念ながら秀才との科学的根拠が認められる秀才、Elite とは思われていない凡才です。早稲田大学の有名政治学者、中林美恵子教授と同様です。私立早稲田大学理工学部応用化学科の一般型（学科試験）ではない AO 試験（現 特別選抜入試）に合格との学歴、経歴が Internet 上公開されています。結局早稲田大学を卒業した若き研究者は、STAP 細胞の存在とご自身の頭の存在（秀才）を証明する 2 つの Hurdle を越えることが、彼女の人生において困難でみえた様です。一方菅義偉総理大臣も、法政大学第一部学部の一般型（学科試験）入学試験に合格」との事実が公表されていませんため、「偏差値 50 程の福島大学、鹿児島大学、千葉大学などの難関中堅国立大学入試学科試験に合格する秀才」と最低 10 人は思われませんと秀才とは言い難い。黒帯の空手武道家でみえる菅義偉総理も、日本国民から 10 票とることがお出来にならない、残念ながら十分な支持を得られないとのことでありましたら、秀才ではなく凡才として立ち振る舞われるべきです。新型 Coronavirus 感染症下で真の秀才であっても失職してみえる方も少なくなく、確か 2008 年リーマンショックの際には、America 人 Office Worker がご自身で作られた「MIT 卒業」の看板を自ら掲げ、秀才を Appeal し路上で求職してみえました。日本空手協会の Homepage によりますと「日本の伝統の中で育まれてきた空手道教育は、技の練磨を通して心を磨きます。」とのことですから「汚らわらしい者」「(影武者でない) デビル」「虚言の神」「欺瞞の支配者」「お坊ちゃま」ではみえない筈ですが、菅義偉さんの学歴詐称、経歴詐称、秀才詐称の霧は総合的にみて未だ晴れてはいません。秀才の真似をしてご自身の凡才を隠すために、日本の大新聞と母校私立法政大学を付度を含め抑え込まれることが、誠の Sportsman ではありません。

千葉県ご出身の小保方晴子さんは私立早稲田大学理学学士でみえますが、国立千葉大学など中堅国立大学 教育学部の学科入学試験に合格する秀才、Elite とは言われません。21 世紀、私立早稲田大学を代表する凡才卒業生、「早稲田のビリギャル、一番下）」です。例え「STAP 細胞はあります」「頭あります」と早稲田大学理学学士として強く何度おっしゃっていただいても、科学的根拠を示していただけないため、甘い早稲田大学、甘い私立大学学閥以外では認められません。早稲田大学は 20 世紀、日本で唯一の難関一流、秀才私立大学でありましたが、21 世紀に日本の少子化による受験生減少に伴って一般型（学科試験）入学試験入学者の割合を減らし、学校推薦型入学試験と総合型選抜入学試験の入学者割合を増やされた結果、21 世紀には難関中堅、凡才私立大学へと変わってしまわれました。今は頭の有無を区別しない凡才が支配的な空気で、人前で品のないタコ踊りを披露しながら緊張感なく子供の様に「ちゃって」「ちゃって」と話される有様でみえ、あほくさい歴史と伝統がご自慢の一流半私立大学です。下手なタコ踊りの一環として、不潔感溢れるお鼻いじり、お耳掃除を目の前でされることも珍しくありません。

Conclusion

There are many Chinese defective masks in Japan and the USA. Furthermore, unlike Japan and the US, China does not mostly admit the masks are defective. They are called “defective masks” in both countries. The Chinese masks are not safe and secure. Japanese private universities including private Hosei University, private Kanazawa Institute of Technology, private Kanazawa Medical University, and private Waseda University are mediocre universities where many mediocrities are seen. Compared to national universities including national Kanazawa University, national Fukushima University, and national Mie University where brilliant students are great majority, the weakness of students and graduates of private universities where mediocrities who talk about blue jokes account for the large portion is their brains. This time as well, Japanese people are questioning the weakness of private Hosei University and Prime Minister Suga, their brains, as he invited suspicions about his academic fraud, resume fraud, and pretending to be brilliant. In 2018, a corruption case on the backdoor admission of a bureaucrat's son, Takanori SANO, in exchange for a government subsidy became widely known to the world. Another case, where Yakan NABE, former powerlifter representing Japan, tried to enter private Meiji University in Tokyo through the backdoor, came to light in 1991. The fact that Takanori SASO's father, Futoshi SANO, was chief of Science and Technology Policy Bureau, Ministry of Education, Culture, Sports, Science Technology, and Yakan NABE's father, a famous TV talent, Osami NABE, talked about Japanese education on TV was considered problematic. These cases overlap Prime Minister Suga's case who heavily conflicted with the Science Council of Japan in 2020. From March 18, 1992, the day I was graduated from Graduate School of national Mie University to November 2, 2020 today, I probably reached a record high for virtually being fired (including cancellations of contracts as a part-time doctor) and finding a job. I am the latest who achieved successful career as a doctor in Mie Prefecture, Japan among classmates of Graduate School of Medicine, national Mie University. For me, it cannot be allowed that they pretend to be brilliant and fabricate their academic and business qualifications to get hired and earn income. Otherwise, I will end up being on the same level as Toru HASHIMOTO, former governor of Osaka prefecture and the “most unclean” politician, who carried out backdoor recruitment examinations with his fellows of graduates of private Waseda University (Waseda's academic clique).

They are mediocrities and inside and outside of the university.

Mr. Takatoku Sano and Mr. Yakan Nabe, former backdoor candidates and preparatory school students, “fabricated their academic background and resume, and pretended to be brilliant”. It was confirmed that they used brokers for entrance examinations and paid a large amount of money to them. However, they counter-argued by saying, “I didn’t know about my backdoor admission” and “it is frustrating that people say I am a backdoor candidate, because I got no points added.” In reality, however, the universities approved backdoor admissions at the request of backdoor candidates and deducted other candidates’ points. They are fellows and rivals as backdoor specialists and test-taking students at the bottom whose titles will not disappear for the rest of their lives.

結論

中国製（中国 Brand）Mask は不良品が多く見受けられ、さらに中国は、日米と異なり不良品自体を余り認めようとされず、日米で「不良品 Mask」と言われています。中国製 Mask は安全で安心ではありません。法政大学、金沢工業大学、金沢医大、早稲田大学など日本の私立大学も、凡才を多くお見受けする凡才大学です。金沢大学、福島大学、三重大学など秀才が支配的な国立大学に比較しますと、凡才が支配的な空気で下ネタも多い私立大学並びに私立大学の学生、卒業生は、頭が弱点になります。今回の菅義偉総理大臣の学歴詐称、経歴詐称、秀才詐称疑惑も法政大学並びに菅総理ご自身の弱点、頭が日本国民に追及されていますが、世界中に知れ渡りました 2018 年私立東京医大での裏口入試受験生佐野貴徳さんの他、元 Powerlifting 日本代表の Talent なべやかんさんも、1991 年に私立明治大学（東京）での裏口入試が日本で持ち上がりました。学歴詐称、経歴詐称、秀才詐称の佐野貴徳さんの父親、佐野太さんが文部科学省 科学技術・学術政策局長でみえたこと、学歴詐称、経歴詐称、秀才詐称のなべやかんさんの父親 Talent なべおさむさんが TV に出られて日本の教育について論評してみえたことが問題視されたことも、2020 年日本の学者集団、日本学術会議と激しく衝突されてます菅義偉総理と重なります。1992 年 3 月 18 日国立三重大学大学院を卒業しましてから本日 2020 年 11 月 2 日まで、三重大学出身の医師、医学博士の中で、恐らく事実上の解雇（非常勤内科勤務契約解除など）及びそれに伴う再就職活動となりました回数が史上最も多く、三重県内、日本国内における医師としての出世が三重大学大学院同期生の中で最後になってしまいました私としまして、学歴詐称、経歴詐称、秀才詐称（秀才のふり）をされ、仕事、収入を得られる行為は決して許されるものではありません。私立早稲田大学の卒業生同志（早稲田大学学閥）で裏口採用試験受験をしてみえます「汚らわしい（元）政治家」橋本徹（元）大阪府知事とも、同じ Level になってしまいます。

入試 Broker と多額の資金のサポートが確認された「学歴詐称、経歴詐称、秀才詐称」の元裏口金権入試受験生兼浪人生のお二人、佐野貴徳さんと Talent なべやかんさんは、「裏口入試について、自分は知らなかった」「加点をされてないのに、裏口と言われるのは悔しい」との甘い反論をしてみえるが、実際は、裏口受験生の依頼を受け、大学が組織的に裏口入試を決断し、裏口受験生以外の受験生の点数を減点していた。生涯消えない底辺の裏口受験生、裏口専門家として、お二人仲間並びに Rival でみえます。

Confirmation of the Current Circumstances

I introduced my difficult view that consists of about 10,000 words in the form of debate this time, referring to American TV dramas, “Columbo” and “West World,” a Korean TV drama “Crash Landing on You,” Hollywood movies, “The Running Man,” “JFK,” “Constantine,” “Miss Sloane,” “Tenet,” “Wonder Woman,” a Japanese movie, “A Taxing Woman,” and a Belgian movie, “The Devil’s Double,” as secret ingredients. (In the movie, “The Running Man,” a character of former Prime Minister Jyunichiro KOIZUMI who was an opera lover and said to be morally bankrupted, about whom major Japanese newspaper companies that are lenient to private mediocre universities have not reported for a long time, appeared.)

Though the view is based on a certain assumption, the accuracy of the contents is not guaranteed, there is still a possibility the contents may be revised. A doctor of private Nippon

日本医科大学
NIPPON MEDICAL SCHOOL

獨協医科大学
Dokkyo Medical University

Medical School became resentful about my inquiry regarding her 60 million yen educational expenses and said “Don’t treat me like a fool. I am not a graduate of a backdoor school.”

And a doctor of private Dokkyo Medical University also became resentful about my inquiry regarding her 60 million yen educational expenses and a broker for entrance examinations.

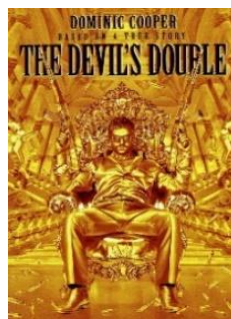

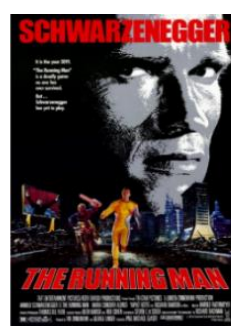

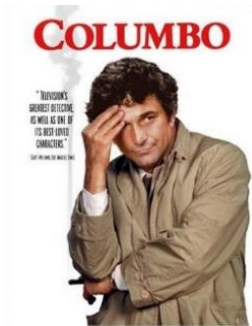

Though it is said that the doctor who is a graduate of Dokkyo Medical University and his/she family went to *Asoko* (the restaurant Gusto parking lot) in Utsunomiya to talk with a secretary of a Diet member about his/her backdoor admission on a cold day, he/her often says that they have never been to there (Gusto’s parking lot). It is necessary to be careful because he/she made numerous calls that hampered our work. Please refer to Chairperson 20th Anniversary Treatise, “My Way since 2006”, and an academic paper, “Paper on July 13, 2016 (Japan).” Needless to say, if Prime Minister Yoshihide SUGA honestly says, “I am a mediocrity who cannot overcome a hurdle, passing an entrance examination for national universities and deviation value of 50”, like Tsurube, a famous TV talent and rakugo master, always says “We are mediocrities” on TV, the debate will finish in 10 minutes.

Japanese prime minister should not disturb students and graduates of high schools, university preparatory schools, universities, and graduate schools when they study hard and should not ruin or defame their reputation that will last forever, and disrupt order when they are hired as part-timer and full-timer. Being mediocre in a national university where brilliant students are dominant is a fatal mistake. Even if a mediocrity has an expensive car and a brilliant spouse, he cannot conceal the fact that he is weak in the head. It doesn’t seem that there is somebody who is smart, brilliant, thoughtful, strong, passionate, strict with himself / herself and academic cliques, and always tries his/her best at private Hosei University and Japanese major newspaper companies that please prime minister. The situation is that there isn’t such a wonderful graduate at national Mie University, my alma mater in Mie Prefecture as well. Please refer to Chairperson 20th Anniversary Treatise “My Way since 2006” and an academic paper, “Paper on April 1, 2017 (Mie University in Japan)” on an academic website, “chairperson.jp.”

現状確認

今回は Debate 形式でおよそ 1 万単語数に及ぶ難解な考え方を提示しまして、米国 TV Drama「刑事コロンボ」「West World」、韓国 TV Drama「愛の不時着」、Hollywood 映画「バトルランナー」「JFK」「コンスタンティン」「女神の見えざる手」「Tenet」「Wonder Woman」、日本映画「マルサの女」、Belgium の映画「The Devil's Double」を隠し味にしています。(「バトルランナー」には、やはり凡才私立大学に甘い日本の大新聞社が長年報道を控えてみえる、道徳的に破綻したと言われる Opera が好きな小泉純一郎(元)総理大臣の Character も登場しています。)しかし内容については一定の前提に基づくものであり、その正確性を保証するものではなく、今後修正される可能性もあります。その上で、私からの 6 千万円の学費、入試 Broker の問い合わせに関しては、私立日本医大の医師が「バカにしてもらっては困る。きちんとした所を出ている。」と憤慨され、また国会議員の秘書と受験生の親、裏口入学の話をするために寒い宇都宮 Gusto の駐車場まで行っていると言われてみえるにも関わらず、「あそこ(寒い Gusto の駐車場)まで行かない」との Phrase をよく口にされる私立獨協医大医師は、私の勤務先に仕事にならないぐらい Claim の電話を掛けてみえたりされますので注意が必要です。学術 Homepage「chairperson.jp」内 Chairperson 20th Anniversary Treatise「My Way since 2006」、Academic Paper「Paper on July 13, 2016 (Japan)」をご参照下さい。申し上げるまでもなく、菅義偉総理は有名 Talent 鶴瓶師匠が TV で言われる「わてら、あほやから」と同じく、TV で「私共(国立大学入試学科試験の Hurdle、偏差値 50 の難関を越えられない)凡才です」とそこまで正直におっしゃれば、「法政大学の凡才」との真実が確認され Debate は 10 分で終わります。

日本の総理大臣が、高校、予備校、大学、大学院の学生及び卒業生の勉学の努力、一生消えない秀才の名声、名誉を棄損され、アルバイト、定期非常勤、常勤としての採用、そして仕事に関して秩序を乱す様なことをされてはいけません。秀才が当たり前の国立大学において凡才は致命的で、例え高級車に乗り配偶者が秀才であっても頭がない事実は Cover し切れません。その一方法政大学及び付度をしてみえる日本の大新聞にも、「賢くて (秀才で)、思いやりがあって、強く、情熱的で、自分と学閥に厳しく、常に全力を尽くしている」人はいらっしやらない様で、私の故郷の母校、国立三重大学にもその様な素晴らしい卒業生は見当たらないのが現状です。学術 Homepage 「chairperson.jp」内 Academic Paper 「Paper on April 1, 2017 (Mie University in Japan)」をご参照ください。

Finally

Today, on November 2, 2020, I stayed at Kagaya Spa Hotel (Traditional Japanese inn) in Ishikawa Prefecture, Japan. Mr. Takashi TEJIMA, General Manager of Kagaya Spa Hotel, which topped the list of 100 Japanese hotels and inns that professionals pick for the 36th consecutive year, took the time to take a picture and shared with me its history and tradition. Let me take this opportunity to express my appreciation for your time despite your hectic schedule. It was my first stay at Kagaya Spa Hotel where I saw your staffs say a string of casual words including “U~n (Hmm),” “Un (ya),” “Gomennasai (Sorry),” “Daijoubu-desuka (Are you OK) ?,” “chatte,” “・・・kane,” “・・・yo,” “Naruhodo (aha),” which we often hear in Tokyo, to me (Dr. Shida). I also saw a bath head clerk who is **vulgar and lacks common sense** dropped his head abruptly like a chicken, and history and tradition I sometimes see at national University of Tokyo, when I joined the tour called “The inside of Kagaya is a museum” led by the bath head clerk. I assume that its staffs are trained to deal with all customers as they treat His Imperial Majesty, who is the spa hotel’s special guest. Since I am not one who graduated from private Gakushuin University (Tokyo) from which His Imperial Majesty graduated but from national Mie University, and not mediocre but smart, I was greeted by only one female staff in front of the main entrance at the Kagaya Spa Hotel in contrast to the fact that a pair of male and female guest was welcomed by male and female staff at the entrance of the other Kagaya group spa hotel (Japanese traditional hotel) at the same hour on the same day. And I saw its large bathhouse that came across to me as a public bath and an open-air bath (when I stayed at Asaya Spa Hotel in Kinugawa Spa, Tochigi Prefecture, Japan a long time ago, they had a typical public bathhouse and a shabby open-air bath) and it came across to me that I received hospitality that was disproportionate given its reputation of being Japan’s number one spa hotel. Having said so, however, if well-informed Kagaya understands the fact that Prime Minister Yoshihide SUGA is weak in the head, admitted to the **Evening Division** of the Department of Politics, Faculty of Law of private Hosei University and graduated from the Day Division of the same, when it was reported to be an equivalent of Martha’s Vineyard in the U.S. state of Massachusetts, a favorite resort of former U.S. President Obama, Kagaya’s hospitality would please Prime Minister Suga, a very important person of Japan, as hospitality to the mediocre guest who graduated from private Hosei University. I believe that the reputation that “Kagaya is a museum” studded with expensive fine art pieces should also be recommended for Prime Minister, along with Mr. Kagaya’s hospitality style which the bath clerk drops his head abruptly. (Of course, as there are many mediocrities among specialists of COVID-19 in Japan, for example, other than His Imperial Majesty or Prime Minister Suga, please check “Paper on June 1, 2020 «Japan»” and others on the academic homepage, “chairperson.jp.” Please see “Paper on January 22, 2013 «The University of Tokyo, Two universities in the U.S.A” and “Paper on August 2, 2016 «World Federation for Medical Education» regarding vulgar teachers with no common sense at national universities.) Though I am an amateur, I expressed my thanks and personal impressions.

最後に

本日 2020 年 11 月 2 日に宿泊をしました「プロが選ぶ日本のホテル旅館百選において 36 年連続日本一」加賀屋旅館（石川県）手島孝雄総支配人には、時間を割いて写真を撮っていただき、加賀屋の歴史、伝統につきまして少しお話を伺うことが出来ました。お忙しい中有難うございました。私初めて滞在しました加賀屋さんの館内では、加賀屋さんの Staff から「うーん」「うん」「ごめんなさい」「大丈夫ですか」「ちゃって」「…かね」「…よ」「なるほど」と、東京で聞かれますお客さんに対する丁寧でない日本語ひと通りと、国立東京大学で拝見します歴史と伝統、まるで鶏の様子にご自身の頭をガクッと落とされる **下品で常識のない加賀屋の湯番頭さん**を「加賀屋湯番頭と行く『館内は美術館ツアー』」でお見掛けしました。加賀屋の特別なお客様でみえる天皇陛下に旅館全体の Staff が合わせてみえるのかもしれませんが、私、私立学習院大学出身ではなくて国立三重大学出身、普通（凡才）ではなく頭がありますため、加賀屋さん私到着時、正面玄関で女性 Staff お一人のみ（近くの加賀屋系列旅館では、同日同時間、男性と女性 Staff のお二人で宿泊 Guest の玄関お出迎えをされてました）のお出迎えでみえたこと、大衆浴場の印象を受ける加賀屋大浴場と露天風呂（栃木県鬼怒川温泉 あさや温泉ホテルも昔宿泊しました際には、いわゆる大衆浴場とポロポロの露天風呂でみえました）を拝見しましたことと共に、今回は日本一の旅館と言われる加賀屋さんとは思えない不釣り合いなおもてなしをしていただいた印象です。しかしながら菅総理は頭が弱い、私立法政大学法学部政治学科**第二部**入学、第一部卒業でみると、情報通の加賀屋さんが理解していらっしゃるやいと、Massachusetts 州 Martha's Vineyard 島が Obama（元）大統領が保養される場所として雰囲気がよく合っていると報道されました様に、加賀屋さんのおもてなしは法政大学ご出身の凡才お客様おもてなしとしまして、日本の VIP 菅義偉総理には喜ばれそうです。加賀屋さんご自慢、「加賀屋館内は美術館」と称される数々の高価な美術品鑑賞も、加賀屋番頭さんのガクッと落とされる頭と共に凡才総理にはお勧めです。（もちろん天皇陛下、菅総理以外にも凡才は、例えば新型 Coronavirus 感染症の専門家などでも沢山いらっしゃるやいまして、学術 Homepage「chairperson.jp」内 学術論文「Paper on June 1, 2020 (Japan)」等をご参照下さい。また下品で常識のない国立大学の教官はこちら「Paper on January 22, 2013 «The University of Tokyo, Two universities in the U.S.A.»」「Paper on August 2, 2016 «World Federation for Medical Education»」です。） お礼を兼ねまして、最後に素人ではありますが私なりの感想を述べさせていただきました。重ねて有難うございました。

Competitive, mid-ranking, brilliant national Mie University works also together with the Sanikai (an academic clique of Mie University Faculty of Medicine) and builds up history and tradition. The troubles with the Sanikai, such as academic harassment and violations still continue. Please refer to an academic paper, “Paper on April 1, 2017 (Australia),” “Paper on April 1, 2017 (Mie University in Japan)” on an academic website, “chairperson.jp.” Hollywood movie “Terminator 2” is the secret ingredient in national Mie University.
