**Head Bartender Matmary and Bar TRIGONA of the Four Seasons Hotel Kuala Lumpur**

Dear Mr. Matmary,

I am Yukihiro SHIDA, a Japanese medical doctor who invented a cocktail, "Chairperson" in 2004. I am not a president of a big or good-standing company, or a top of a university or the medical society, and I am neither a celebrity (athlete, actor...) nor a heavy investor, etc., but a M.D. and Ph.D. of Japanese national Mie University and responsible for about 100 persons (60 inpatients and 40 medical staffs) as a full-time doctor at a hospital in the Tokyo metropolitan area. This is just a friendly reminder that national universities (national Fukushima University, national Mie University...) where brilliants are dominant are different from three famous universities related to the "expensive" backdoor entrance examinations, private Teikyo University, private Tokyo Medical University and private Waseda University where mediocrities are dominant in Japan. If possible, I would like to hear your comments (voice) on the cocktail "Chairperson" and take a picture with you for my memory and for the record of our academic papers at your main bar. I have booked a room at the Four Seasons Hotel Kuala Lumpur on April 17, 2023.

Dear Head Bartender, you said that mixology is both art and science: "What makes a cocktail great, technically speaking, is a precise balance of ingredients and flavours. But I strongly believe every exceptional cocktail also needs a compelling story and a passionate bartender." So I am looking forward to meeting you at your main bar TRIGONA on April 17.

Sincerely,

Yukihiro SHIDA (M.D., Ph.D., National Mie University, Japan)
