Executive Assistant General Manager
Metropolitan Hotel (JR «Japan Railway Company» Hotel Group)
Sendai, Japan

Dear Executive Assistant General Manager,

I have sent a letter about our study to four or five-star hotels in Utsunomiya and Sendai in Japan several times. I am the Doctor and Chairperson of Sports. It is my pleasure to introduce our academic homepage **“chairperson.jp”** which is visited from all over the world including China (??). For your information, I have informed about the **“Chairperson 20th Anniversary Treatise”** which is an unconventional style (not a full paper style) to the professors of the University of Tokyo in 2012, Harvard University in 2013, Oxford University in 2014 and Paris University in 2015 for the **“Doping-Backdoor Theory,”** the general managers or assistant general managers of hundreds of four or five-star hotels around the world for the **“Chairperson Cocktail”** and the regular members of the Vienna Philharmonic Orchestra for **“My Way”** in (2010 and) 2016. “There are one and only theory and cocktail for universities and hotels in the 21st century.”

In Japan, Waseda University, the sole first-class private university, does not use the entrance-examination broker and 70 ~ 80% of the undergraduate students have a brain. Dr. Kaoru Kamata, (former) President of Waseda University and his henchmen spoke ill of me at Waseda University, “We (Waseda) can’t accept Dr. Shida’s way of conducting his research. He promotes his research on the floor, not on the stage ...” behind my back on July 10, 2006. From a bitter (not sweet) view point, three-fourth of undergraduate students of Waseda University are strong and one-fourth of them are weak, like Keio University which is the third-class private university to use the entrance-examination broker. “Quarter Weak (*San-kyou, Ichi-jaku*).” The University of Tokyo is the best one among about ten first-class public universities which does not use the entrance-examination broker and 100% of the undergraduate students have a brain. Two professors of the University of Tokyo gave their historical and traditional ‘Academic Harassment’ to me at the University of Tokyo. They dropped their heads abruptly towards me on March 14 and May 22, 2012. For your reference, Fukushima University and my old school, Mie University are near first-class public universities which do not use the entrance-examination broker and 90% of the undergraduate students have a brain.

Assistant General Manager, it would be grateful if your hotel is interested in my research. And I am content that your hotel just gets to know our cocktail **“Chairperson.”** No response will be needed. These serious situations for our study in the academic field in Japan had been reported to the Board of Directors of the Japan Society for Medical Education on May 30, 2015. Please feel relieved, but a little.

Sincerely,

Yukihisa SHIDA (M.D., Ph.D., Mie University, Japan)
Doctor and Chairperson of Sports — the fastest pace in history
Member of the Roppongi Hills Club, Japan

“Backdoor Doctor, Kazuhiko Inoue”
Associate Professor of Kawasaki Medical University
and President of the Annual Meeting 2019 of Japan
Society of Ningen Dock (total health check) in Okayama

“Two universities used an entrance-examination broker and gathered more than sixty million yen (550,000 US\$) from each medical candidate like the students of the High School attached to Kawasaki Medical University in Japan.”
Kawasaki Medical University (Okayama) Dokkyo Medical University (Tochigi)

早稲田大学
WASEDA University

THE UNIVERSITY OF TOKYO

“Backdoor, not Brilliant Doctor of the third -class private university, Atsushi Amano”

国立大学法人
福島大学
Fukushima University

MIE
UNIVERSITY

I had worked for an insurance company as a chief doctor in Utsunomiya City. I took a day trip to Utsunomiya, Fukushima and Sendai in Japan with the cocktail “Chairperson” on April 30 and will join the medical society in Okayama for a few hours on July 25, 2019. Now I have two different kinds of troubles with the Tsu Family Court and Saitama Family Court. In a famous Japanese TV drama **“Shiroi Kyoto (The White Tower) 2019,”** Dr. Goro Zaizen (of Osaka University) never sees his patient after his operation (terrible!) like Dr. Atsushi Amano who is an attending surgeon for His Imperial Majesty. However, Dr. Shuji Satomi (of Osaka University), Associate Professor of the First Department of Internal Medicine did not consult with Associate Professor of the First Department of Surgery when Professor Zaizen took a business trip to Germany. On the other hand, I, M.D., Ph.D. of Mie University and a member of Roppongi Hills Club, consulted with two Chief Judges of the Tsu and Saitama Family Courts who have a Bachelor of Law and are an only well-defined persons in charge.
